Notice to ETP Securityholders of the Leverage Shares 3x Tesla ETP Securities (ISIN: XS2297549128) (the “Relevant Series”)

Leverage Shares plc (the “**Issuer**”) hereby provides notice to the holders of the Relevant Series that, due to technical issues with the Margin Loan Provider of the Relevant Series on 8 June 2023, the Portfolio Administrator was not in a position to completely rebalance the Margin Account for the Relevant Series in order to track the iSTOXX Leveraged 3x TSLA Index. As a result, the degree of leverage exposure provided by the Relevant Series to the Reference Asset by open of trading on 9 June 2023 on the exchanges where it trades, will deviate from its Leverage Factor (the “**Tracking Error**”).

As at open of trading on 9 June 2023, on the exchanges on which it trades, the degree of leverage exposure provided by the Relevant Series to the Reference Asset will be 2.85x.

The Issuer is working to resolve the Tracking Error as soon as possible and will notify ETP Securityholders of the Relevant Series when the Tracking Error ceases.

The extent of the Tracking Error will be driven mainly by the number of units held in the Reference Asset of the Relevant Series (which is updated daily on the Issuer’s Website) and its daily closing price.

Terms used but not defined in this notice shall bear the meanings assigned to them in the Issuer’s Base Prospectus approved by the Central Bank of Ireland on 4 May 2023.
