STATEMENT OF ADDITIONAL INFORMATION

June 9, 2026

This Statement of Additional Information (“SAI”) is not a Prospectus. It should be read in conjunction with the current Prospectus, as may be revised from time to time (“Prospectus”), for the exchange traded funds (“ETFs”) listed above (each a “Fund” and collectively the “Funds”), each a separate series of Themes ETF Trust (the “Trust”). The current Prospectus for the Funds is dated June 9, 2026. Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. A copy of the Prospectus for the Funds may be obtained, without charge, by calling 1-866-5Themes (1-866-584-3637), visiting www.ThemesETFs.com, or writing to Themes ETF Trust, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701.

An investment in a Fund is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation, or any other government agency or any bank. An investment in a Fund involves investment risks, including possible loss of principal.

APPENDIX A	A-1

GENERAL DESCRIPTION OF THE TRUST AND THE FUNDS

The Trust was organized as a Delaware statutory trust on February 22, 2023 and is authorized to issue multiple series or portfolios. The Trust is an open-end, management investment company, registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The offering of the Trust’s shares is registered under the Securities Act of 1933, as amended (the “Securities Act”). Each Fund’s ticker symbol appears on the cover of this SAI, and references to specific Funds in the sections below will refer to such Funds by their ticker symbol.

Each Fund’s investment objective and principal investment strategies are described in the prospectus. Each Fund is “non-diversified” as that term is defined in the 1940 Act. As a non-diversified fund, each Fund is permitted to invest in fewer securities at any one time than a diversified fund. The following information supplements, and should be read in conjunction with, the prospectus.

Themes Management Company LLC (the “Adviser”) is the investment adviser to the Funds. ALPS Distributors, Inc. is the distributor (the “Distributor”) of the shares of the Funds.

The Funds issue and redeem shares (“Shares”) at net asset value per share (“NAV”) only in large blocks of Shares (“Creation Units” or “Creation Unit Aggregations”). These transactions are usually in exchange for a basket of securities included in its portfolio and an amount of cash. As a practical matter, only institutions or large investors (authorized participants) who have entered into agreements with the Trust’s Distributor, can purchase or redeem Creation Units. Except when aggregated in Creation Units, Shares of the Fund are not redeemable securities.

Shares of the Funds are listed on NYSE Arca, Inc. (the “Exchange”), and trade throughout the day on the Exchange and other secondary markets at market prices that may differ from NAV. As in the case of other publicly traded securities, brokers’ commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the prices of Shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the applicable Fund.

INVESTMENT STRATEGIES AND RISKS

Each Fund’s investment objective, principal investment strategies and associated risks are described in the Funds’ Prospectus. The sections below supplement these principal investment strategies and risks and describe each Fund’s additional investment policies and the different types of investments that may be made by a Fund as a part of its non-principal investment strategies. With respect to each Fund’s investments, unless otherwise noted, if a percentage limitation on investment is adhered to at the time of investment or contract, a subsequent increase or decrease as a result of market movement or redemption will not result in a violation of such investment limitation.

Each Fund intends to qualify each year as a regulated investment company (a “RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), so that it will not be subject to US federal income tax on income and gains that are timely distributed to Fund shareholders. The Funds will invest their assets, and otherwise conduct their operations, in a manner that is intended to satisfy the qualifying income, diversification and distribution requirements necessary to establish and maintain RIC qualification under Subchapter M of the Code.

GENERAL RISKS

An investment in a Fund should be made with an understanding that the value of that Fund’s portfolio securities may fluctuate in accordance with changes in the financial condition of an issuer or counterparty, changes in specific economic, political, public health or cyber conditions that affect a particular security or issuer and changes in general economic, political, public health or cyber conditions. An investor in the Funds could lose money over short or long periods of time.

An investment in a Fund should also be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of a Fund's portfolio securities and therefore a decrease in the value of Shares of that Fund). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic, public health, cyber, or banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

There can be no guarantee that a liquid market for the securities held by the Funds will be maintained. The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of the Shares will be adversely affected if trading markets for a Fund's portfolio securities are limited or absent, or if bid/ask spreads are wide.

Cybersecurity Risk. As the use of technology has become more prevalent in the course of business, the Funds may be more susceptible to operational and financial risks associated with cyber security, including: theft, loss, misuse, improper release, corruption and destruction of, or unauthorized access to, confidential or highly restricted data relating to a Fund and its shareholders; and compromises or failures to systems, networks, devices and applications relating to the operations of a Fund and its service providers. Cyber security risks may result in financial losses to a Fund and its shareholders; the inability of a Fund to transact business with its shareholders; delays or mistakes in the calculation of a Fund's NAV or other materials provided to shareholders; the inability to process transactions with shareholders or other parties; violations of privacy and other laws; regulatory fines, penalties and reputational damage; and compliance and remediation costs, legal fees and other expenses. A Fund's service providers (including, but not limited to, its investment adviser, any sub-advisers, administrator, transfer agent, and custodian or their agents), financial intermediaries, companies in which a Fund invests and parties with which a Fund engages in portfolio or other transactions also may be adversely impacted by cyber security risks in their own businesses, which could result in losses to a Fund or its shareholders. While measures have been developed which are designed to reduce the risks associated with cyber security, there is no guarantee that those measures will be effective, particularly since the Funds do not directly control the cyber security defenses or plans of their service providers, financial intermediaries and companies in which they invest or with which they do business.

Pandemic Risk. The global pandemic caused by COVID-19, a novel coronavirus, resulted in a wide range of social and economic disruptions, including closed borders, voluntary or compelled quarantines of large populations, stressed healthcare systems, reduced or prohibited domestic or international travel, supply chain disruptions, and so-called "stay-at-home" orders throughout much of the United States and many other countries. The fall-out from these disruptions has included the rapid closure of businesses deemed "non-essential" by federal, state, or local governments and rapidly increasing unemployment, as well as greatly reduced liquidity for certain instruments at times. Some sectors of the economy and individual issuers have experienced particularly large losses. Such disruptions may continue for an extended period of time or reoccur in the future to a similar or greater extent. It is unknown how long circumstances related to the pandemic will persist, whether they will reoccur in the future, whether efforts to support the economy and financial markets will be successful, and what additional implications may follow from the pandemic. The impact of these events and other epidemics or pandemics in the future could adversely affect Fund performance.

A discussion of some of the other risks associated with investments in the Funds is contained in each Fund's Prospectus.

SPECIFIC INVESTMENT STRATEGIES

The following are descriptions of the Funds' permitted investments and investment practices and the associated risk factors. A Fund will only invest in any of the following instruments or engage in any of the following investment practices if such investment or activity is consistent with a Fund's investment objective and permitted by a Fund's stated investment policies. See the Funds' prospectus for additional information on the Funds' investment practices and the associated risk factors.

LEVERAGE RISK. The Fund seeks to provide leveraged investment exposure and, as a result, the Fund may be more volatile than a fund that does not employ leverage. The use of leverage magnifies both gains and losses and increases the risk of investing in the Fund. Because the Fund seeks a multiple of the daily performance of the Underlying Security, a relatively small adverse movement in the value of the Underlying Security may result in a disproportionately large loss to the Fund.

The Fund expects to obtain leveraged exposure through derivatives, including swaps and options, and may also hold direct investments in the Underlying Security. The use of derivatives and other leveraged instruments may increase the Fund's exposure to market volatility, liquidity risk, valuation risk, counterparty risk and operational risk. The Fund may be required to rebalance its portfolio on a frequent basis, which may increase portfolio turnover, transaction costs and the realization of taxable gains.

The Fund's use of leverage may cause the Fund's net asset value to be more sensitive to changes in the value of the Underlying Security than would be the case for an unleveraged investment. During periods of heightened market volatility, the Fund's exposure may change significantly over short periods of time, and losses may be substantial. An investor in the Fund could lose the entire value of his or her investment. There can be no assurance that the Fund will be successful in achieving its investment objective.

INVERSE LEVERAGE RISK. The 2X Short SPCX Daily ETF seeks to provide leveraged inverse investment exposure and, as a result, is subject to the risks associated with both leverage and short exposure. The Fund is designed to benefit from declines in the value of the Underlying Security on a daily basis. If the value of the Underlying Security increases, the Fund will lose value. Because the Fund seeks a multiple of the inverse of the daily performance of the Underlying Security, relatively small increases in the value of the Underlying Security may result in disproportionately large losses to the Fund.

The Fund expects to obtain inverse exposure primarily through derivatives, including swaps, options and other financial instruments. The availability, cost and effectiveness of instruments providing inverse exposure may be more limited than those providing long exposure. During periods of market stress, volatility, limited liquidity or significant increases in the value of the Underlying Security, counterparties may require additional collateral, increase financing costs, reduce available capacity or decline to provide additional exposure. These risks may be heightened for newly public companies, securities with limited trading histories or securities experiencing unusually high levels of investor interest.

The Fund's performance over periods longer than one day will likely differ from the inverse multiple of the performance of the Underlying Security for the same period due to the effects of daily compounding. Volatility in the Underlying Security may significantly affect the Fund's performance and may cause the Fund to lose value even during periods in which the Underlying Security declines. The Fund may be required to rebalance its portfolio frequently, which may increase transaction costs and adversely affect performance. An investor in the Fund could lose the entire value of his or her investment. There can be no assurance that the Fund will be successful in achieving its investment objective.

COMPOUNDING AND MARKET VOLATILITY RISK. Each Fund seeks to achieve its stated investment objective on a daily basis. Each Fund is not designed to provide its stated multiple or inverse multiple of the performance of the Underlying Security for periods greater than one day. The return of a Fund for periods longer than one day will be the result of its daily returns compounded over the period, which will likely differ from the stated multiple or inverse multiple of the return of the Underlying Security for the same period.

The effect of compounding becomes more pronounced as the volatility of the Underlying Security increases and as the holding period extends. During periods of higher volatility, the Underlying Security may experience significant fluctuations in value over short periods of time, which may adversely affect the Fund's performance regardless of whether the Underlying Security's performance is positive or negative over a longer period. As a result, volatility may reduce a Fund's returns and, in certain circumstances, cause the Fund to lose value even when the performance of the Underlying Security is favorable to the Fund's investment objective over the same period.

A Fund's daily rebalancing and pursuit of leveraged or inverse leveraged exposure may cause a Fund to increase exposure to the Underlying Security as the Underlying Security appreciates and reduce exposure as the Underlying Security declines, or vice versa in the case of an inverse fund. This rebalancing process may adversely affect performance, particularly during periods of market volatility. A Fund may experience greater losses than a fund that does not employ leverage and may be subject to increased portfolio turnover, transaction costs and operational costs associated with maintaining its target exposure.

The performance of a Fund may be particularly sensitive to volatility when the Underlying Security has a limited trading history, experiences significant price movements, is subject to trading halts, or trades in a market environment characterized by heightened uncertainty or reduced liquidity. Investors who intend to hold shares for periods longer than one trading day should closely monitor their investments, as the effects of compounding may be substantial. An investor in a Fund could lose the entire value of his or her investment.

SWAPS. Each Fund may enter into total return swaps, which may be used either as economically similar substitutes for owning the reference asset specified in the swap, such as the securities that comprise a given market index, particular securities or commodities, or other assets or indicators. They also may be used as a means of obtaining exposure in markets where the reference asset is unavailable or it may otherwise be impossible or impracticable for a Fund to own that asset. "Total return" refers to the payment (or receipt) of the total return on the underlying reference asset, which is then exchanged for the receipt (or payment) of an interest rate. Total return swaps provide a Fund with the additional flexibility of gaining exposure to an underlying stock in a potentially more economical way.

Most swaps entered into by a Fund provide for the calculation and settlement of the obligations of the parties to the agreement on a "net basis" with a single payment. Consequently, a Fund's current obligations (or rights) under a swap will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the "net amount"). Other swaps may require initial premium (discount) payments as well as periodic payments (receipts) related to the interest leg of the swap or to the return on the reference entity. A Fund's current obligations under the types of swaps that the Funds expect to enter into (e.g., total return swaps) will be accrued daily (offset against any amounts owed to a Fund by the counterparty to the swap) and any accrued but unpaid net amounts owed to a swap counterparty will collateralized by the Fund posting collateral to a tri-party account between the Fund's custodian, the Fund, and the counterparty. However, typically no payments will be made until the settlement date.

Swap agreements do not involve the delivery of securities or other underlying assets. Accordingly, if a swap is entered into on a net basis and if the counterparty to a swap agreement defaults, a Fund's risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive, if any.

In recent years, regulators across the globe, including the U.S. Commodity Futures Trading Commission ("CFTC") and the U.S. banking regulators, have adopted collateral requirements applicable to uncleared swaps. While a Fund is not directly subject to these requirements, where a Fund's counterparty is subject to the requirements, uncleared swaps between a Fund and that counterparty are required to be marked-to-market on a daily basis, and collateral is required to be exchanged to account for any changes in the value of such swaps. The rules impose a number of requirements as to these exchanges of collateral, including as to the timing of transfers, the type of collateral (and valuations for such collateral) and other matters that may be different than what a Fund would agree with its counterparty in the absence of such regulation. In all events, where a Fund is required to post collateral to its swap counterparty, such collateral will be posted to an independent bank custodian, where access to the collateral by the swap counterparty will generally not be permitted unless a Fund is in default on its obligations to the swap counterparty.

In addition to the variation margin requirements, regulators have adopted "initial" margin requirements applicable to uncleared swaps. Where applicable, these rules require parties to an uncleared swap to post, to a custodian that is independent from the parties to the swap, collateral (in addition to any variation margin noted above) in an amount that is either (i) specified in a schedule in the rules or (ii) calculated by the regulated party in accordance with a model that has been approved by that party's regulator(s). Effective September 1, 2022, the initial margin rules will apply to the swap trading relationships of Funds with average aggregate notional amounts that exceed \$8 billion. These rules may impose significant costs on a Fund's ability to engage in uncleared swaps and, as such, could adversely affect the Advisor's ability to manage a Fund, may impair a Fund's ability to achieve its investment objective and/or may result in reduced returns to a Fund's investors.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”) and related regulatory developments have imposed comprehensive new regulatory requirements on swaps and swap market participants. The regulatory framework includes: (1) registration and regulation of swap dealers and major swap participants; (2) requiring central clearing and execution of standardized swaps; (3) imposing collateral requirements on Swap transactions; (4) regulating and monitoring swap transactions through position limits and large trader reporting requirements; and (5) imposing recordkeeping and centralized and public reporting requirements, on an anonymous basis, for most swaps. The CFTC is responsible for the regulation of most swaps. The SEC has jurisdiction over a small segment of the market referred to as “security-based swaps,” which includes swaps on single securities or credits, or narrow-based indices of securities or credits.

Uncleared swaps. In an uncleared swap, the swap counterparty is typically a brokerage firm, bank or other financial institution. A Fund customarily enters into uncleared swaps based on the standard terms and conditions of an International Swaps and Derivatives Association (“ISDA”) Master Agreement. ISDA is a voluntary industry association of participants in the OTC derivatives markets that has developed standardized contracts used by such participants that have agreed to be bound by such standardized contracts. In the event that one party to a swap transaction defaults and the transaction is terminated prior to its scheduled termination date, one of the parties may be required to make an early termination payment to the other. An early termination payment may be payable by either the defaulting or non-defaulting party, depending upon which of them is “in-the-money” with respect to the swap at the time of its termination. Early termination payments may be calculated in various ways, but are intended to approximate the amount the “in-the-money” party would have to pay to replace the swap as of the date of its termination. During the term of an uncleared swap, a Fund will be required to pledge to the swap counterparty, from time to time, an amount of cash and/or other assets equal to the total net amount (if any) that would be payable by a Fund to the counterparty if all outstanding swaps between the parties were terminated on the date in question, including any early termination payments. Periodically, changes in the amount pledged are made to recognize changes in value of the contract resulting from, among other things, interest on the notional value of the contract, market value changes in the underlying investment, and/or dividends paid by the issuer of the underlying instrument. Likewise, the counterparty will be required to pledge cash or other assets to cover its obligations to a Fund. However, the amount pledged may not always be equal to or more than the amount due to the other party. Therefore, if a counterparty defaults in its obligations to a Fund, the amount pledged by the counterparty and available to a Fund may not be sufficient to cover all the amounts due to a Fund and the Fund may sustain a loss. Rules requiring initial margin to be posted by certain market participants for uncleared swaps have been adopted and are being phased in over time. When these rules take effect with respect to the Funds, if a Fund is deemed to have material swaps exposure under applicable swap regulations, it will be required to post initial margin in addition to variation margin.

Cleared swaps. Certain standardized swaps are subject to mandatory central clearing and exchange-trading. The Dodd-Frank Act and implementing rules will ultimately require the clearing and exchange-trading of many swaps. Mandatory exchange-trading and clearing will occur on a phased-in basis based on the type of market participant, CFTC approval of contracts for central clearing and public trading facilities making such cleared swaps available to trade. To date, the CFTC has designated only certain of the most common types of credit default index swaps and interest rate swaps as subject to mandatory clearing and certain public trading facilities have made certain of those cleared swaps available to trade, but it is expected that additional categories of swaps will in the future be designated as subject to mandatory clearing and trade execution requirements. Central clearing is intended to reduce counterparty credit risk and increase liquidity, but central clearing does not eliminate these risks and may involve additional costs and risks not involved with uncleared swaps. In a cleared swap, a Fund’s ultimate counterparty is a central clearinghouse rather than a brokerage firm, bank or other financial institution. Cleared swaps are submitted for clearing through each party’s futures commission merchant (“FCM”), which must be a member of the clearinghouse that serves as the central counterparty. Transactions executed on a swap execution facility may increase market transparency and liquidity but may require a Fund to incur increased expenses to access the same types of swaps that it has used in the past. When a Fund enters into a cleared swap, it must deliver to the central counterparty (via the FCM) initial margin. The initial margin requirements are determined by the central counterparty, and are typically calculated as an amount equal to the volatility in market value of the cleared swap over a fixed period, but an FCM may require additional collateral above the amount required by the central counterparty. During the term of the swap agreement, an additional collateral amount may also be required to be paid by a Fund or may be received by a Fund in accordance with collateral controls set for such accounts. If the value of the Fund’s cleared swap declines, the Fund will be required to make additional payments to the FCM to settle the change in value. Conversely, if the market value of a Fund’s position increases, the FCM will post additional amounts to the Fund’s account. At the conclusion of the term of the swap agreement, if a Fund has a loss equal to or greater than the collateral amount, the collateral amount is paid to the FCM along with any loss in excess of the collateral amount. If a Fund has a loss of less than the collateral amount, the excess collateral is returned to a Fund. If a Fund has a gain, the full collateral amount and the amount of the gain is paid to a Fund.

The regulation of cleared and uncleared swaps, as well as other derivatives, is a rapidly changing area of law and is subject to modification by government and judicial action. In addition, the SEC, CFTC and the exchanges are authorized to take extraordinary actions in the event of a market emergency, including, for example, the implementation or reduction of speculative position limits, the implementation of higher collateral requirements, the establishment of daily price limits and the suspension of trading. It is not possible to predict fully the effects of current or future regulation. However, it is possible that developments in government regulation of various types of derivative instruments, such as speculative position limits on certain types of derivatives, or limits or restrictions on the counterparties with which a Fund engages in derivative transactions, may limit or prevent the Fund from using or limit the Fund's use of these instruments effectively as a part of its investment strategy, and could adversely affect the Fund's ability to achieve its investment goal. The Adviser will continue to monitor developments in the area, particularly to the extent regulatory changes affect a Fund's ability to enter into desired swap agreements. New requirements, even if not directly applicable to a Fund, may increase the cost of a Fund's investments and cost of doing business.

OPTIONS. An option is a contract that gives the purchaser of the option, in return for the premium paid, the right to buy an underlying reference instrument, such as a specified security, currency, index, or other instrument, from the writer of the option (in the case of a call option), or to sell a specified reference instrument to the writer of the option (in the case of a put option) at a designated price during the term of the option. The premium paid by the buyer of an option will reflect, among other things, the relationship of the exercise price to the market price and the volatility of the underlying reference instrument, the remaining term of the option, supply, demand, interest rates and/or currency exchange rates. An American style put or call option may be exercised at any time during the option period while a European style put or call option may be exercised only upon expiration or during a fixed period prior thereto. Put and call options are traded on national securities exchanges and in the OTC market.

Options traded on national securities exchanges are within the jurisdiction of the SEC or other appropriate national securities regulator, as are securities traded on such exchanges. As a result, many of the protections provided to traders on organized exchanges will be available with respect to such transactions. In particular, all option positions entered into on a national securities exchange in the United States are cleared and guaranteed by the Options Clearing Corporation, thereby reducing the risk of counterparty default. Furthermore, a liquid secondary market in options traded on a national securities exchange may be more readily available than in the OTC market, potentially permitting a Fund to liquidate open positions at a profit prior to exercise or expiration, or to limit losses in the event of adverse market movements. There is no assurance, however, that higher than anticipated trading activity or other unforeseen events might not temporarily render the capabilities of the Options Clearing Corporation inadequate, and thereby result in the exchange instituting special procedures which may interfere with the timely execution of the Fund's orders to close out open options positions.

The Fund may purchase and sell a combination of standardized exchange-traded and FLEXible EXchange[®] Options ("FLEX Options") call option contracts that are based on the value of the price returns of the underlying instrument. Standardized exchange-traded options include standardized terms. FLEX options are also exchange-traded, but they allow for customizable terms (e.g., the strike price can be negotiated).

Call Options. As the buyer of a call option, a Fund has a right to buy the underlying reference instrument (e.g., a currency or security) at the exercise price at any time during the option period (for American style options). The Fund may enter into closing sale transactions with respect to call options, exercise them, or permit them to expire. For example, the Fund may buy call options on the underlying reference instrument with the goal of gaining exposure to the underlying reference instrument. Unless the price of the underlying reference instrument changes sufficiently, a call option purchased by the Fund may expire without any value to the Fund, in which case the Fund would experience a loss to the extent of the premium paid for the option plus related transaction costs.

BORROWING. While the Funds do not intend to borrow for investment purposes, the Funds reserve the right to do so. Borrowing for investment purposes is a form of leverage. Leveraging investments, by purchasing securities with borrowed money, is a speculative technique that increases investment risk, but also increases investment opportunity. The Funds also may enter into certain transactions, including reverse repurchase agreements, which can be viewed as constituting a form of leveraging by the Funds. Leveraging will exaggerate the effect on the net asset value per share (“NAV”) of the Funds of any increase or decrease in the market value of the Funds’ portfolio. Because substantially all of the Funds’ assets will fluctuate in value, whereas the interest obligations on borrowings may be fixed, the NAV of the Funds will increase more when the Funds’ portfolio assets increase in value and decrease more when the Funds’ portfolio assets decrease in value than would otherwise be the case. Moreover, interest costs on borrowings may fluctuate with changing market rates of interest and may partially offset or exceed the returns on the borrowed funds. Under adverse conditions, the Funds might have to sell portfolio securities to meet interest or principal payments at a time when investment considerations would not favor such sales. Generally, the Funds would use this form of leverage during periods when the Advisor believes that the Funds’ investment objective would be furthered.

The Funds also may borrow money to facilitate management of the Funds’ portfolio by enabling the Funds to meet redemption requests when the liquidation of portfolio instruments would be inconvenient or disadvantageous. Such borrowing is not for investment purposes and will be repaid by the Funds promptly. As required by the 1940 Act, the Funds must maintain continuous asset coverage (total assets, including assets acquired with borrowed funds, less liabilities exclusive of borrowings) of 300% of all amounts borrowed. If, at any time, the value of the Funds’ assets should fail to meet this 300% coverage test, the Funds, within three days (not including Sundays and holidays), will reduce the amount of the Funds’ borrowings to the extent necessary to meet this 300% coverage requirement. Maintenance of this percentage limitation may result in the sale of portfolio securities at a time when investment considerations otherwise indicate that it would be disadvantageous to do so.

In addition to the foregoing, the Funds are authorized to borrow money as a temporary measure for extraordinary or emergency purposes in amounts not in excess of 5% of the value of the Funds’ total assets. Borrowings for extraordinary or emergency purposes are not subject to the foregoing 300% asset coverage requirement. While the Funds do not anticipate doing so, the Funds are authorized to pledge (*i.e.*, transfer a security interest in) portfolio securities in an amount up to one-third of the value of the Funds’ total assets in connection with any borrowing.

FIXED INCOME SECURITIES. The Funds may invest in fixed income securities. Even though interest-bearing securities are investments that promise a stable stream of income, the prices of such securities are affected by changes in interest rates. In general, fixed income security prices rise when interest rates fall and fall when interest rates rise. Securities with shorter maturities, while offering lower yields, generally provide greater price stability than longer term securities and are less affected by changes in interest rates. The values of fixed income securities also may be affected by changes in the credit rating or financial condition of the issuing entities. Once the rating of a portfolio security has been changed, the Funds will consider all circumstances deemed relevant in determining whether to continue to hold the security.

Fixed income investments bear certain risks, including credit risk, or the ability of an issuer to pay interest and principal as they become due. Generally, higher yielding bonds are subject to more credit risk than lower yielding bonds. Interest rate risk refers to the fluctuations in value of fixed income securities resulting from the short relationship between the market value of outstanding fixed income securities and changes in interest rates. An increase in interest rates will generally reduce the market value of fixed income investments and a decline in interest rates will tend to increase their value.

A number of factors, including changes in a central bank’s monetary policies or general improvements in the economy, may cause interest rates to rise. Fixed income securities with longer durations are more sensitive to interest rate changes than securities with shorter durations, making them more volatile. This means their prices are more likely to experience a considerable reduction in response to a rise in interest rates.

FIXED-INCOME SECURITIES RATINGS. Nationally recognized statistical rating organizations (together, rating agency) publish ratings based upon their assessment of the relative creditworthiness of rated fixed-income securities. Generally, a lower rating indicates higher credit risk, and higher yields are ordinarily available from fixed-income securities in the lower rating categories to compensate investors for the increased credit risk. Any use of credit ratings in evaluating fixed-income securities can involve certain risks. For example, ratings assigned by the rating agencies are based upon an analysis completed at the time of the rating of the obligor's ability to pay interest and repay principal, typically relying to a large extent on historical data. Rating agencies typically rely to a large extent on historical data which may not accurately represent present or future circumstances. Ratings do not purport to reflect to risk of fluctuations in market value of the fixed-income security and are not absolute standards of quality and only express the rating agency's current opinion of an obligor's overall financial capacity to pay its financial obligations. A credit rating is not a statement of fact or a recommendation to purchase, sell or hold a fixed-income obligation. Also, credit quality can change suddenly and unexpectedly, and credit ratings may not reflect the issuer's current financial condition or events since the security was last rated. Rating agencies may have a financial interest in generating business, including the arranger or issuer of the security that normally pays for that rating, and a low rating might affect future business. While rating agencies have policies and procedures to address this potential conflict of interest, there is a risk that these policies will fail to prevent a conflict of interest from impacting the rating. Additionally, legislation has been enacted in an effort to reform rating agencies. The SEC has also adopted rules to require rating agencies to provide additional disclosure and reduce conflicts of interest, and further reform has been proposed. It is uncertain how such legislation or additional regulation might impact the ratings agencies business and the Adviser's investment process.

Prepayment risk occurs when a fixed-income investment held by a Fund may be repaid in whole or in part prior to its maturity. The amount of prepayable obligations a Fund invests in from time to time may be affected by general business conditions, market interest rates, borrowers' financial conditions and competitive conditions among lenders. In a period of declining interest rates, borrowers may repay investments more quickly than anticipated, reducing the yield to maturity and the average life of the relevant investment. Moreover, when a Fund reinvests the proceeds of a prepayment in these circumstances, it will likely receive a rate of interest that is lower than the rate on the security that was prepaid. To the extent that a Fund purchases a relevant investment at a premium, prepayments may result in a loss to the extent of the premium paid. If a Fund buys such investments at a discount, both scheduled payments and unscheduled prepayments will increase current and total returns and unscheduled prepayments will also accelerate the recognition of income. In a period of rising interest rates, prepayments of investments may occur at a slower than expected rate, creating maturity extension risk. This particular risk may effectively change an investment that was considered short- or intermediate-term at the time of purchase into a longer-term investment. Since the value of longer-term investments generally fluctuates more widely in response to changes in interest rates than short-term investments, maturity extension risk could increase the volatility of a Fund. When interest rates decline, the value of an investment with prepayment features may not increase as much as that of other fixed-income securities and, as noted above, changes in market rates of interest may accelerate or delay prepayments and thus affect maturities.

ILLIQUID INVESTMENTS. Each Fund may invest up to an aggregate amount of 15% of its net assets in illiquid investments, as such term is defined by Rule 22e-4 of the 1940 Act. The Funds may not invest in illiquid investments if, as a result of such investment, more than 15% of the Fund's net assets would be invested in illiquid investments. Illiquid investments include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The inability of a Fund to dispose of illiquid investments readily or at a reasonable price could impair the Fund's ability to raise cash for redemptions or other purposes. The liquidity of securities purchased by a Fund that are eligible for resale pursuant to Rule 144A, except for certain 144A bonds, will be monitored by the Funds on an ongoing basis. In the event that more than 15% of its net assets are invested in illiquid investments, the Funds, in accordance with Rule 22e-4(b)(1)(iv), will report the occurrence to both the Board of Trustees of the Trust (the "Board") and the SEC and seek to reduce its holdings of illiquid investments within a reasonable period of time.

DERIVATIVES. The Funds will invest in derivatives. A derivative is a financial instrument that has a value based on—or “derived from”—the values of other assets, reference rates, or indexes. Derivatives may relate to a wide variety of underlying references, such as commodities, stocks, bonds, interest rates, currency exchange rates, and related indexes. Derivatives include futures contracts and options on futures contracts, certain forward-commitment transactions, options on securities, caps, floors, collars, swap agreements, and certain other financial instruments. Some derivatives, such as futures contracts and certain options, are traded on U.S. commodity and securities exchanges, while other derivatives, such as swap agreements, may be privately negotiated and entered into in the over-the-counter market (OTC Derivatives) or may be cleared through a clearinghouse (Cleared Derivatives) and traded on an exchange or swap execution facility. As a result of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), certain swap agreements, such as certain standardized credit default and interest rate swap agreements, must be cleared through a clearinghouse and traded on an exchange or swap execution facility. This could result in an increase in the overall costs of such transactions. While the intent of derivatives regulatory reform is to mitigate risks associated with derivatives markets, the regulations could, among other things, increase liquidity and decrease pricing for more standardized products while decreasing liquidity and increasing pricing for less standardized products. The risks associated with the use of derivatives are different from, and possibly greater than, the risks associated with investing directly in the securities or assets on which the derivatives are based.

Derivatives may be used for a variety of purposes, including—but not limited to—hedging, managing risk, seeking to stay fully invested, seeking to reduce transaction costs, seeking to simulate an investment in equity or debt securities or other investments, and seeking to add value by using derivatives to more efficiently implement portfolio positions when derivatives are favorably priced relative to equity or debt securities or other investments. Some investors may use derivatives primarily for speculative purposes while other uses of derivatives may not constitute speculation. There is no assurance that any derivatives strategy used by a fund’s adviser will succeed. The other parties to a fund’s OTC Derivatives contracts (usually referred to as “counterparties”) will not be considered the issuers thereof for purposes of certain provisions of the 1940 Act and the IRC, although such OTC Derivatives may qualify as securities or investments under such laws. A fund’s adviser(s), however, will monitor and adjust, as appropriate, the fund’s credit risk exposure to OTC Derivative counterparties.

Derivative products are highly specialized instruments that require investment techniques and risk analyses different from those associated with stocks, bonds, and other traditional investments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself, without the benefit of observing the performance of the derivative under all possible market conditions.

When a fund enters into a Cleared Derivative, an initial margin deposit with a Futures Commission Merchant (FCM) is required. Initial margin deposits are typically calculated as an amount equal to the volatility in market value of a Cleared Derivative over a fixed period. If the value of the fund’s Cleared Derivatives declines, the fund will be required to make additional “variation margin” payments to the FCM to settle the change in value. If the value of the fund’s Cleared Derivatives increases, the FCM will be required to make additional “variation margin” payments to the fund to settle the change in value. This process is known as “marking-to-market” and is calculated on a daily basis.

For OTC Derivatives, a fund is subject to the risk that a loss may be sustained as a result of the insolvency or bankruptcy of the counterparty or the failure of the counterparty to make required payments or otherwise comply with the terms of the contract. Additionally, the use of credit derivatives can result in losses if a fund’s advisor does not correctly evaluate the creditworthiness of the issuer on which the credit derivative is based.

Derivatives may be subject to liquidity risk, which exists when a particular derivative is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid (as is the case with certain OTC Derivatives), it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price.

Derivatives may be subject to pricing or “basis” risk, which exists when a particular derivative becomes extraordinarily expensive relative to historical prices or the prices of corresponding cash market instruments. Under certain market conditions, it may not be economically feasible to initiate a transaction or liquidate a position in time to avoid a loss or take advantage of an opportunity.

Because certain derivatives have a leverage component, adverse changes in the value or level of the underlying asset, reference rate, or index can result in a loss substantially greater than the amount invested in the derivative itself. Certain derivatives have the potential for unlimited loss, regardless of the size of the initial investment. A derivative transaction will not be considered to constitute the issuance, by a fund, of a “senior security,” as that term is defined in Section 18(g) of the 1940 Act, and therefore such transaction will not be subject to the 300% asset coverage requirement otherwise applicable to borrowings by a fund, if the fund complies with Rule 18f-4.

Like most other investments, derivative instruments are subject to the risk that the market value of the instrument will change in a way detrimental to a fund’s interest. A fund bears the risk that its advisor will incorrectly forecast future market trends or the values of assets, reference rates, indexes, or other financial or economic factors in establishing derivative positions for the fund. If the advisor attempts to use a derivative as a hedge against, or as a substitute for, a portfolio investment, the fund will be exposed to the risk that the derivative will have or will develop imperfect or no correlation with the portfolio investment. This could cause substantial losses for the fund. Although hedging strategies involving derivative instruments can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favorable price movements in other fund investments. Many derivatives (in particular, OTC Derivatives) are complex and often valued subjectively. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to a fund.

Rule 18f-4 imposes limits on the amount of derivatives a fund can enter into, eliminates the asset segregation framework currently used by funds to comply with Section 18 of the 1940 Act, as amended, treats derivatives as senior securities, and requires funds whose use of derivatives is more than a limited specified exposure amount to establish and maintain a comprehensive derivatives risk management program and appoint a derivatives risk manager.

MONEY MARKET INSTRUMENTS. The Funds may invest a portion of their assets in high-quality money market instruments or in money market mutual funds on an ongoing basis to provide liquidity or for other reasons. The instruments in which each Fund or money market mutual fund may invest include: (i) short-term obligations issued by the U.S. Government; (ii) negotiable certificates of deposit (“CDs”), fixed time deposits and bankers’ acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase “Prime-1” by Moody’s or “A-1+” or “A-1” by Standard & Poor’s (“S&P”) or, if unrated, of comparable quality as determined by the Fund; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker’s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

NON-DIVERSIFICATION. Each Fund is classified as a non-diversified investment company under the 1940 Act. A “non-diversified” classification means that a Fund is not limited by the 1940 Act with regard to the percentage of its assets that may be invested in the securities of a single issuer. This means that a Fund may invest a greater portion of its assets in the securities of a single issuer or a small number of issuers than if it was a diversified fund. This may have an adverse effect on a Fund’s performance or subject a Fund’s Shares to greater price volatility than more diversified investment companies. Moreover, in pursuing its objective, a Fund may hold the securities of a single issuer in an amount exceeding 10% of the value of the outstanding securities of the issuer, subject to restrictions imposed by the Code.

Although each Fund is non-diversified for purposes of the 1940 Act, each Fund intends to maintain the required level of diversification and otherwise conduct its operations so as to qualify as a RIC for purposes of the Code, and to relieve a Fund of any liability for federal income tax to the extent that its earnings are distributed to shareholders. Compliance with the diversification requirements of the Code may limit the investment flexibility of a Fund and may make it less likely that a Fund will meet its investment objectives. See “US Federal Income Taxes” in this SAI for further discussion.

OTHER SHORT-TERM INSTRUMENTS. In addition to repurchase agreements, a Fund may invest in short-term instruments, including money market instruments, on an ongoing basis to provide liquidity or for other reasons. Money market instruments are generally short-term investments that may include but are not limited to: (i) shares of money market funds; (ii) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities (including government-sponsored enterprises); (iii) negotiable certificates of deposit (“CDs”), bankers’ acceptances, fixed time deposits and other obligations of U.S. and foreign banks (including foreign branches) and similar institutions; (iv) commercial paper rated at the date of purchase “Prime-1” by Moody’s or “A-1” by S&P or, if unrated, of comparable quality as determined by the Adviser; (v) non-convertible corporate debt securities (e.g., bonds and debentures) with remaining maturities at the date of purchase of not more than 397 days and that satisfy the rating requirements set forth in Rule 2a-7 under the 1940 Act; and (vi) short-term U.S. dollar-denominated obligations of foreign banks (including U.S. branches) that, in the opinion of the Adviser, are of comparable quality to obligations of U.S. banks which may be purchased by the Fund. Any of these instruments may be purchased on a current or a forward-settled basis. Money market instruments also include shares of money market funds. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers’ acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

REPURCHASE AGREEMENTS. Each Fund may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which a Fund purchases securities or other obligations from a bank or securities dealer (or its affiliate) and simultaneously commits to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations. A Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special “tri-party” custodian or sub-custodian that maintains separate accounts for both the Fund and its counterparty. Thus, the obligation of the counterparty to pay the repurchase price on the date agreed to or upon demand is, in effect, secured by such obligations.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that at all times the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. Repurchase agreements involving obligations other than U.S. Government securities (such as commercial paper and corporate bonds) may be subject to special risks and may not have the benefit of certain protections in the event of the counterparty’s insolvency. If the seller or guarantor becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition of collateral.

TAX RISK. As with any investment, you should consider how your investment in shares will be taxed. The tax information in the Prospectus and this SAI is provided as general information. You should consult your own tax professional about the tax consequences of an investment in shares.

Unless your investment in shares is made through a tax-exempt entity or tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when the Fund makes distributions or you sell shares.

U.S. GOVERNMENT SECURITIES. A Fund may invest in U.S. government securities to the extent consistent with its investment objective and strategies. Not all U.S. government obligations carry the same credit support. Although many U.S. government securities in which the fund may invest, such as those issued by Fannie Mae and Freddie Mac may be chartered or sponsored by Acts of Congress, their securities are neither issued nor guaranteed by the U.S. Treasury and, therefore, are not backed by the full faith and credit of the United States. Some, such as those of Ginnie Mae, are supported by the full faith and credit of the U.S. Treasury. Other obligations, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury; and others are supported by the discretionary authority of the U.S. government to purchase the agency’s obligations. Still others are supported only by the credit of the instrumentality or sponsored enterprise. The maximum potential liability of the issuers of some U.S. government securities held by the fund may greatly exceed their current resources, including their legal right to support from the U.S. Treasury. It is possible that these issuers will not have the funds to meet their payment obligations in the future. No assurance can be given that the U.S. government would provide financial support to its agencies, instrumentalities or sponsored enterprises if it is not obligated to do so by law.

As an agency of the U.S. government has placed Fannie Mae and Freddie Mac into conservatorship, a statutory process with the objective of returning the entities to normal business operations. It is unclear what effect this conservatorship will have on the securities issued or guaranteed by Fannie Mae or Freddie Mac. As a result, these securities are subject to more credit risk than U.S. government securities that are supported by the full faith and credit of the United States (e.g., U.S. Treasury bonds).

To the extent a Fund invests in debt instruments or securities of non-U.S. government entities that are backed by the full faith and credit of the United States, there is a possibility that such guarantee may be discontinued or modified at a later date.

The total public debt of the United States as a percentage of gross domestic product has grown rapidly since the beginning of the 2008-2009 financial downturn and is expected to grow even greater as a result of efforts to support the U.S. economy during the COVID-19 pandemic beginning in 2020. Although high debt levels do not necessarily indicate or cause economic problems, they may create certain systemic risks if sound debt management practices are not implemented. A high national debt can raise concerns that the U.S. government will not be able to make principal or interest payments when they are due. This increase has also necessitated the need for the U.S. Congress to negotiate adjustments to the statutory debt ceiling to increase the cap on the amount the U.S. government is permitted to borrow to meet its existing obligations and finance current budget deficits. In August 2011, S&P lowered its long term sovereign credit rating on the U.S. In explaining the downgrade at that time, S&P cited, among other reasons, controversy over raising the statutory debt ceiling and growth in public spending. On August 2, 2019, following passage by Congress, the President of the United States signed the Bipartisan Budget Act of 2019, which suspends the statutory debt limit through July 31, 2021. Any controversy or ongoing uncertainty regarding the statutory debt ceiling negotiations may impact the U.S. long-term sovereign credit rating and may cause market uncertainty. As a result, market prices and yields of securities supported by the full faith and credit of the U.S. government may be adversely affected. Increased government spending in response to COVID-19 can cause the national debt to rise higher, which could heighten these associated risks.

FUTURE DEVELOPMENTS. The Board may, in the future, authorize a Fund to invest in securities contracts and investments other than those listed in this SAI and in the Fund's Prospectus, provided they are consistent with the Fund's investment objective and do not violate any investment restrictions or policies.

INVESTMENT LIMITATIONS

The Trust has adopted the following investment restrictions as fundamental policies with respect to the Funds. These restrictions cannot be changed with respect to a Fund without the approval of the holders of a majority of the Fund's outstanding voting securities. For the purposes of the 1940 Act, a "majority of outstanding shares" means the vote of the lesser of: (1) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund's outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Fund.

Except with the approval of a majority of the outstanding voting securities, each Fund may not:

1. Concentrate its investments (*i.e.*, hold more than 25% of its total assets) in any industry or group of related industries, except that each Fund will concentrate in the industry to which its Underlying Security is assigned. For purposes of this limitation, securities of the U.S. government (including its agencies and instrumentalities), repurchase agreements collateralized by U.S. government securities, and tax-exempt securities of state or municipal governments and their political subdivisions are not considered to be issued by members of any industry.
2. Borrow money or issue senior securities (as defined under the 1940 Act), except to the extent permitted under the 1940 Act.
3. Make loans, except to the extent permitted under the 1940 Act.

4. Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments, except to the extent permitted under the 1940 Act. This shall not prevent a Fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business.
5. Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments, except to the extent permitted under the 1940 Act. This shall not prevent the Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities.
6. Underwrite securities issued by other persons, except to the extent permitted under the 1940 Act.

In addition to the investment restrictions adopted as fundamental policies as set forth above, the Funds observe the following non-fundamental restriction, which may be changed without a shareholder vote.

1. Each Fund will not invest in illiquid investments if, as a result of such investment, more than 15% of its net assets would be invested in illiquid investments. An illiquid investment is any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment.

If a percentage limitation is adhered to at the time of investment or contract, a later increase or decrease in percentage resulting from any change in value or total or net assets will not result in a violation of such restriction, except with respect to the borrowing of money. With respect to the limitation on illiquid securities, in the event that a subsequent change in net assets or other circumstances cause a Fund to exceed its limitation, the Fund will take steps to bring the aggregate amount of illiquid instruments back within the limitations as soon as reasonably practicable. With respect to the limitation on borrowing, in the event that a subsequent change in net assets or other circumstances cause a Fund to exceed its limitation, the Fund will take steps to bring the aggregate amount of borrowing back within the limitations within three days thereafter (not including Sundays and holidays).

PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES

The Board has adopted a policy regarding the disclosure of information about the Funds' security holdings. On each Business Day (as defined in the Purchase and Redemption of Shares in Creation Units section of this SAI), prior to the opening of regular trading on a Fund's primary listing exchange, the Fund discloses on its website (www.ThemesETFs.com) certain information relating to the portfolio holdings that will form the basis of the Fund's next net asset value per share calculation.

In addition, certain information may also be made available to certain parties:

1. COMMUNICATIONS OF DATA FILES

Each Fund may make available through the facilities of the National Securities Clearing Corporation ("NSCC") or through posting on the Fund's website, prior to the opening of trading on each business day, a list of the Fund's holdings (generally pro-rata) that Authorized Participants could deliver to the Fund to settle purchases of the Fund (i.e., Deposit Securities) or that Authorized Participants would receive from the Fund to settle redemptions of the Fund (i.e., Fund Securities). These files are known as the Portfolio Composition File and the Fund Data File (collectively, "Files"). The Files are applicable for the next trading day and are provided to the NSCC and/or posted on the Funds' website after the close of markets in the U.S.

2. COMMUNICATIONS WITH AUTHORIZED PARTICIPANTS AND LIQUIDITY PROVIDERS

Certain employees of the Adviser, Distributor and Custodian are responsible for interacting with Authorized Participants and liquidity providers with respect to discussing custom basket proposals. As part of these discussions, these employees may discuss with an Authorized Participant or liquidity provider the securities a Fund is willing to accept for a creation, and securities that a Fund will provide on a redemption.

3. THE ADVISER

The Adviser may also discuss portfolio holdings-related information with broker/dealers, in connection with settling a Fund's transactions, as may be necessary to conduct business in the ordinary course in a manner consistent with the disclosure in the Fund's current registration statement.

4. COMMUNICATIONS WITH LISTING EXCHANGES

From time to time, employees of the Adviser, Distributor and/or Custodian may discuss portfolio holdings information with the applicable primary listing exchange for a Fund as needed to meet the exchange listing standards.

5. COMMUNICATION OF OTHER INFORMATION

Certain explanatory information regarding the Files is released to Authorized Participants and liquidity providers on a daily basis, but is only done so after the Files are posted to the Funds' website.

6. THIRD-PARTY SERVICE PROVIDERS

Certain portfolio holdings information may be disclosed to the Independent Trustees and their counsel, outside counsel for the Trust, auditors and to certain third-party service providers (i.e., fund administrator, custodian, proxy voting service, and printers), as may be necessary to conduct business in the ordinary course in a manner consistent with applicable policies, agreements with the Funds, the terms of the current registration statement and federal securities laws and regulations thereunder.

7. THE FUND FILES

Each Fund files its complete portfolio holdings schedule with the SEC on a quarterly basis. This schedule is filed with the Trust's annual and semi-annual reports on Form N-CSR for the second and fourth fiscal quarters and on Form N-PORT for the first and third fiscal quarters. Certain portfolio information is also included on Form N-PORT that is filed for the second and fourth fiscal quarters. The portfolio holdings information provided in these reports is as of the end of the respective quarter. Form N-CSR must be filed with the SEC no later than 10 calendar days after the Trust transmits its annual or semi-annual report to its shareholders. Form N-PORT must be filed with the SEC and will be made publicly available no later than 60 calendar days after the end of the applicable quarter.

No consideration may be received by a Fund, the Adviser, or any other person in connection with the disclosure of portfolio information. The Trust's Chief Compliance Officer or his delegate may authorize disclosure of portfolio holdings information pursuant to the above policy and procedures, subject to restrictions on selective disclosure imposed by applicable law. The Board reviews the policy and procedures for disclosure of portfolio holdings information at least annually.

CONTINUOUS OFFERING

The method by which Creation Unit Aggregations of Shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Unit Aggregations of Shares are issued and sold on an ongoing basis, at any point a "distribution," as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Unit Aggregations after placing an order with the Trust's Distributor, breaks them down into constituent Shares, and sells such Shares directly to customers, or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealer firms should also note that dealers who are not "underwriters" but are affecting transactions in Shares, whether or not participating in the distribution of Shares, generally are required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(a)(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. Firms that incur a prospectus delivery obligation with respect to Shares of a Fund are reminded that, pursuant to Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with the sale on the Listing Exchange is satisfied by the fact that the prospectus is available at the Listing Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

MANAGEMENT OF THE TRUST

Board Responsibilities. The management and affairs of the Trust and its series are overseen by a Board of Trustees. The Board elects the officers of the Trust who are responsible for administering the day-to-day operations of the Trust and the Funds. The Board has approved contracts, as described below, under which certain companies provide essential services to the Trust.

Like most ETFs, the day-to-day business of the Trust, including the management of risk, is performed by third party service providers, such as the Adviser, the Distributor and the Trust's administrator. The Trustees are responsible for overseeing the Trust's service providers and, thus, have oversight responsibility with respect to risk management performed by those service providers. Risk management seeks to identify and address risks, *i.e.*, events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Funds. The Funds and their service providers employ a variety of processes, procedures and controls to identify various of those possible events or circumstances, in an attempt to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (*e.g.*, the Adviser is responsible for the day-to-day management of the Funds' portfolio investments) and, consequently, for managing the risks associated with that business. The Board has emphasized to the Funds' service providers the importance of maintaining vigorous risk management.

The Board's role in risk oversight begins before the inception of a Fund, at which time certain of the Fund's service providers present the Board with information concerning the investment objectives, strategies and risks of the Fund as well as proposed investment limitations for the Fund. Additionally, the Adviser provides the Board with an overview of, among other things, its investment philosophy, brokerage practices and compliance infrastructure. Thereafter, the Board continues its oversight function as various personnel, including the Trust's Chief Compliance Officer, as well as personnel of the Adviser, and other service providers such as the Fund's independent accountants, make periodic reports to the Audit Committee or to the Board with respect to various aspects of risk management. The Board and the Audit Committee oversee efforts by management and service providers to manage risks to which a Fund may be exposed.

The Board is responsible for overseeing the nature, extent, and quality of the services provided to the Funds by the Adviser and receives information about those services at its regular meetings. In addition, on an annual basis (following the initial two-year period), in connection with its consideration of whether to renew the Investment Advisory Agreement with the Adviser, the Board meets with the Adviser to review such services. Among other things, the Board regularly considers the Adviser's adherence to the Funds' investment restrictions and compliance with various Fund policies and procedures and with applicable securities regulations. The Board also reviews information about each Fund's performance and the Fund's investments, including, for example, portfolio holdings schedules.

The Trust's Chief Compliance Officer reports regularly to the Board to review and discuss compliance issues and provide risk assessments. At least annually, the Trust's Chief Compliance Officer provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the Adviser. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; any material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and any material compliance matters since the date of the last report.

The Board receives reports from the Funds' service providers regarding operational risks and risks related to the valuation and liquidity of portfolio securities. Annually, the independent registered public accounting firm reviews with the Audit Committee its audit of each Fund's financial statements, focusing on major areas of risk encountered by the Fund and noting any significant deficiencies or material weaknesses in the Fund's internal controls. Additionally, in connection with its oversight function, the Board oversees Fund management's implementation of disclosure controls and procedures, which are designed to ensure that information required to be disclosed by the Trust in its periodic reports with the SEC are recorded, processed, summarized, and reported within the required time periods. The Board also oversees the Trust's internal controls over financial reporting, which comprise policies and procedures designed to provide reasonable assurance regarding the reliability of the Trust's financial reporting and the preparation of the Trust's financial statements.

From their review of these reports and discussions with the Adviser, the Chief Compliance Officer, the independent registered public accounting firm and other service providers, the Board and the Audit Committee learn in detail about the material risks of each Fund, thereby facilitating a dialogue about how management and service providers identify and mitigate those risks.

The Board recognizes that not all risks that may affect a Fund can be identified and/or quantified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve a Fund's goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, reports received by the Trustees as to risk management matters are typically summaries of the relevant information. Most of the Funds' investment management and business affairs are carried out by or through the Adviser and other service providers, each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from a Fund's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's ability to monitor and manage risk, as a practical matter, is subject to limitations.

Members of the Board and Officers of the Trust. There are 4 members of the Board of Trustees (each, a "Trustee"), three of whom are not interested persons of the Trust, as that term is defined in the 1940 Act ("Independent Trustees"). Sanjay R. Bharwani, an Independent Trustee, serves as Chairman of the Board. The Board of Trustees is comprised of a super-majority (75 percent) of Independent Trustees. The Board of Trustees has two standing committees: the Audit Committee and the Nominating and Corporate Governance Committee. Each Committee is chaired by an Independent Trustee and composed of only Independent Trustees. The Audit Committee chair presides at the Committee meetings, participates in formulating agendas for Committee meetings, and coordinates with management to serve as a liaison between the Independent Trustees and management on matters within the scope of responsibilities of the Committee as set forth in its Board-approved charter. The Trust has determined its leadership structure is appropriate given the specific characteristics and circumstances of the Trust. The Trust made this determination in consideration of, among other things, the number of Independent Trustees that constitute the Board, the amount of assets under management in the Trust, and the number of Funds overseen by the Board. The Board also believes that its leadership structure facilitates the orderly and efficient flow of information to the Independent Trustees from Fund management.

The Audit Committee is comprised of all of the Independent Trustees. The function of the Audit Committee is to review the scope and results of the annual audit of the Funds and any matters bearing on the audit or a Fund's financial statements and to ensure the integrity of the Funds' financial reporting. The Audit Committee also recommends to the Board of Trustees the annual selection of the independent registered public accounting firm for the Funds, and it reviews and pre-approves audit and certain non-audit services to be provided by the independent registered public accounting firm. During the fiscal year ended October 31, 2024, the Audit Committee met four times. Neil Fleming is the Chair of the Audit Committee.

The Nominating and Corporate Governance Committee, comprised of all the Independent Trustees, is responsible for seeking and reviewing candidates for consideration as nominees for Trustees. The Committee will generally not consider potential candidates for nomination identified by shareholders. The Committee meets on an as needed basis. During the upcoming year the Nominating Committee is not expected to meet. Tracy N. Packwood is the Chair of the Nominating and Corporate Governance Committee.

Additional information about each Trustee of the Trust is set forth below. The address of each Trustee of the Trust is c/o Themes Management Company, LLC, 34 East Putnam Avenue, Suite 112, Greenwich, Connecticut 06830.

Individual Trustee Qualifications

The Trust has concluded that, based on each Trustee's experience, qualifications, attributes or skills on an individual basis and in combination with those of the other Trustees, each Trustee is qualified to serve on the Board. The Board believes that the Trustees' ability to review critically, evaluate, question and discuss information provided to them; to interact effectively with the Adviser, other service providers, legal counsel and independent public accountant; and to exercise effective business judgment in the performance of their duties as Trustees, support this conclusion. In addition, the following specific experience, qualifications, attributes and skills apply to the Trustees:

Mr. Bharwani has experience as a founder and CEO of Radiant LLC, a fund intelligence and analytics platform, and Risk Advisors Inc., a risk management and technology consultancy. He also served as Managing Director of Ernst & Young from 2019 to 2022 where he led the data and analytics consulting practice for the asset management industry. Mr. Bharwani has eleven years' previous experience as an independent trustee, and Board and committee chair, of Global X Funds Trust, a registered investment company.

Mr. Fleming trained as a Chartered Accountant in Ireland with Grant Thornton and has experience as a chief financial officer. He previously served an executive director of the financial services outsourcing and corporate services business (with responsibility for Finance (CFO), Operations (COO), Treasury Services and Compliance) for one of Ireland's largest banks. Mr. Fleming has held regulator approved positions in Ireland ("Central Bank") and Luxembourg ("CSSF") and is a member of the Association of Corporate Treasurers (UK), the Institute of Directors, the Institute of Bankers and an Accredited Fund Professional. He currently is a Director and sole owner of a corporate services provider to SPVs and serves as a non-executive director of various boards in the financial services and global treasury arena.

Mr. Gonzalez has experience as a founder and CEO of multiple companies. He has been the CEO and co-founder of Leverage Shares (a provider of exchange-traded products in Europe) since July 2018 and established the Adviser in March 2023. Mr. Gonzalez previously co-founded Global X, a leading provider of exchange-traded funds, where he served as a director from September 2008 to July 2018. Additionally, he is the founder and CEO and a director of GWM Ltd, a broker-dealer based in Bermuda, and Flexfunds, a U.S.-based fund accounting and administration business. He also founded GWM Group Inc. in 2006 and was its CEO until 2020.

Ms. Packwood is a Chartered Accountant with 25 years of experience in the international investment management and financial services industry, including senior level finance, administration, accounting and general management experience. She is also an experienced non-executive director having served on the Boards of private companies, publicly listed companies (Bermuda Stock Exchange and Canadian Stock Exchange), non-profit organizations, and Bermuda Investment Funds. Ms. Packwood is currently responsible for the operations of and client services provided by Cohort Limited which provides corporate management, Bermuda Stock Exchange listing and consultancy services to local Bermuda companies, offshore companies, and funds.

In its periodic assessment of the effectiveness of the Board, the Board considers the complementary individual skills and experience of the individual Trustees primarily in the broader context of the Board's overall composition so that the Board, as a body, possesses the appropriate (and appropriately diverse) skills and experience to oversee the business of the Funds. References to the qualifications, attributes and skills of Trustees are pursuant to requirements of the SEC, do not constitute holding out the Board or any Trustee as having any special expertise or experience, and shall not impose any greater responsibility on any Trustee or on the Board by reason thereof.

Principal Officers of the Trust

The officers of the Trust conduct and supervise its daily business. The address of each officer of the Trust, unless otherwise indicated below, is c/o Themes Management Company LLC, 34 East Putnam Avenue, Suite 112, Greenwich, CT 06830.

Name and Year of Birth	Position(s) Held with Funds	Term of Office and Length of Time Served	Principal Occupation(s) During Past Five Years
Tracy Gilvarry Grant Year of Birth: 1978	Secretary	Indefinite; Since Inception	General Counsel and co-founder of the Adviser and Leverage Shares.
Dobromir Kamburov Year of Birth: 1985	Treasurer	Indefinite; Since Inception	Chief Operating Officer and co-founder of the Adviser and Leverage Shares.

Fund Shares Owned by Board Members. The Funds are required to show the dollar amount ranges of each Trustee’s “beneficial ownership” of Shares of the Funds and each other series of the Trust as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the Exchange Act.

As of the date of this SAI, no Trustee owned shares of the Funds.

Board Compensation. Independent Trustees are paid by the Adviser from the unified management fee paid to the Adviser and not by the Funds. The Trust has no pension or retirement plan. No officer, director or employee of the Adviser receives any compensation from the Funds for acting as a Trustee or officer of the Trust. The following table shows the compensation earned by each Trustee for the fiscal year ended October 31, 2025. Trustee compensation does not include reimbursed out-of-pocket expenses in connection with attendance at meetings.

Name	Aggregate Compensation From the Funds	Total Compensation From Fund Complex Paid to Trustees
Interested Trustees		
Jose C. Gonzalez	N/A	N/A
Independent Trustees		
Sanjay R. Bharwani	\$32,250	\$32,250
Neil Fleming	\$32,250	\$32,250
Tracy N. Packwood	\$32,250	\$32,250

Control Persons and Principal Holders of Securities. A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding Shares of a Fund. A control person is a shareholder that owns beneficially or through controlled companies more than 25% of the voting securities of a Fund or acknowledges the existence of control. Shareholders owning voting securities in excess of 25% may determine the outcome of any matter affecting and voted on by shareholders of a Fund. As of the date of this SAI, no shareholder owned shares of the Funds. The Adviser will serve as the seed investor for the Trust.

INVESTMENT ADVISER

Themes Management Company, LLC serves as investment adviser to the Funds pursuant to an investment advisory agreement between the Trust, on behalf of the Funds, and the Adviser (the "Investment Advisory Agreement"). The Adviser is a Delaware limited liability company located at 34 East Putnam Avenue, Suite 112, Greenwich, Connecticut 06830. The Adviser is a wholly-owned subsidiary of Themes Holding Company and is controlled by Jose Gonzalez, who is the majority owner of Themes Holding Company.

Pursuant to the Investment Advisory Agreement, the Adviser provides investment advice to the Funds and oversees the day-to-day operations of the Funds, subject to the direction and control of the Board and the officers of the Trust. The Adviser also arranges for transfer agency, custody, fund administration and all other non-distribution-related services necessary for the Funds to operate. Each Fund pays the Adviser a fee equal to a percentage of the Fund's average daily net assets, as follows:

Name of Fund	Management Fee
Leverage Shares 2X Long SPCX Daily ETF	0.75%
Leverage Shares 2X Short SPCX Daily ETF	0.75%

Under the Investment Advisory Agreement, the Adviser has agreed to pay all expenses of the Funds, except for: the fees paid to the Adviser pursuant to the Investment Advisory Agreement, interest charges on any borrowings, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution (12b-1) fees and expenses, if any.

The Adviser, from its own resources, including profits from advisory fees received from the Funds, provided such fees are legitimate and not excessive, may make payments to broker-dealers and other financial institutions for their expenses in connection with the distribution of Fund Shares, and otherwise currently pays all distribution costs for Fund Shares.

The Investment Advisory Agreement, with respect to the Funds, continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board of Trustees of the Trust or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Funds, provided that in either event such continuance also is approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Funds, by a vote cast in person at a meeting called for the purpose of voting on such approval. If the shareholders of a Fund fail to approve the Investment Advisory Agreement, the Adviser may continue to serve in the manner and to the extent permitted by the 1940 Act and rules and regulations thereunder.

The Investment Advisory Agreement with respect to the Funds is terminable without any penalty, by vote of the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Funds, or by the Adviser, in each case on not less than thirty (30) days' nor more than sixty (60) days' prior written notice to the other party; provided that a shorter notice period shall be permitted for the Funds in the event Shares are no longer listed on a national securities exchange. The Investment Advisory Agreement will terminate automatically and immediately in the event of its "assignment" (as defined in the 1940 Act).

As of the date of this SAL, no management fees have been paid by the Funds to the Adviser.

Portfolio Managers. Calvin Tsang, CFA, Head of Product Management and Development of the Adviser, Dingxun (Kevin) Shao, Vice President, Product Management and Development of the Adviser, and Paul Bartkowiak, Vice President, Portfolio Management of the Adviser, are jointly and primarily responsible for the day-to-day management of each Fund and has served as portfolio manager since each Fund's inception.

The following table shows the number of other accounts managed by the portfolio manager ("Other Accounts") and the reporting information is provided as of April 30, 2026:

The following information is applicable to Calvin Tsang:

Type of Accounts	Total Number of Accounts	Total Assets of Accounts (millions)	Total Number of Accounts with Performance Based Fees	Total Assets of Accounts with Performance Based Fees (millions)
Registered Investment Companies	98	\$1,290	0	0
Other Pooled Investment Vehicles	0	0	0	0
Other Accounts	0	0	0	0

The following information is applicable to Dingxun (Kevin) Shao:

Type of Accounts	Total Number of Accounts	Total Assets of Accounts (millions)	Total Number of Accounts with Performance Based Fees	Total Assets of Accounts with Performance Based Fees (millions)
Registered Investment Companies	98	\$1,290	0	0
Other Pooled Investment Vehicles	0	0	0	0
Other Accounts	0	0	0	0

The following information is applicable to Paul Bartkowiak:

Type of Accounts	Total Number of Accounts	Total Assets of Accounts (millions)	Total Number of Accounts with Performance Based Fees	Total Assets of Accounts with Performance Based Fees (millions)
Registered Investment Companies	98	\$1,290	0	0
Other Pooled Investment Vehicles	0	0	0	0
Other Accounts	0	0	0	0

Portfolio Manager Fund Ownership. The Funds are required to show the dollar range of the portfolio manager’s “beneficial ownership” of Shares as of the end of the most recently completed fiscal year. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. As of the date of this SAI, none of the portfolio managers owned any shares of the Funds.

Portfolio Manager Compensation. Messrs. Tsang, Shao and Bartkowiak each receive a fixed salary from the Adviser and a discretionary bonus not tied to the performance of any Fund.

Description of Material Conflicts of Interest. A potential conflict of interest could include a portfolio manager's knowledge about the size, timing and possible market impact of Fund trades, whereby such portfolio manager could use this information to the advantage of Other Accounts and to the disadvantage of a Fund. Another potential conflict of interest may arise as a result of a portfolio manager's management of a Fund and Other Accounts, which, in theory, may allow them to allocate investment opportunities in a way that favors Other Accounts over a Fund. This conflict of interest may be exacerbated to the extent that the Adviser or a portfolio manager receives, or expects to receive, greater compensation from their management of the Other Accounts (some of which may receive a base and incentive fee) than from a Fund. Notwithstanding this theoretical conflict of interest, it is the Adviser's policy to manage each account based on its investment objectives and related restrictions, and the portfolio manager does not receive greater compensation for his management of the Other Accounts than he receives for managing the Funds. The Adviser has adopted policies and procedures reasonably designed to allocate investment opportunities on a fair and equitable basis over time and in a manner consistent with each account's investment objectives and related restrictions.

Codes of Ethics. The Trust, the Adviser, and the Distributor (as defined under "The Distributor") have each adopted a code of ethics, including an insider trading policy, pursuant to Rule 17j-1 of the 1940 Act and Rule 204A-1 of the Investment Advisers Act of 1940, as applicable, which permits personnel subject to the code of ethics to invest in securities, including securities that may be purchased or held by the Funds. These codes of ethics are designed to prevent affiliated persons of the Trust, the Adviser and the Distributor from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Funds (which may also be held by persons subject to the codes of ethics).

There can be no assurance that the codes of ethics will be effective in preventing such activities. The Codes of Ethics adopted by the Trust, the Adviser and the Distributor are on public file with, and are available from, the SEC at the SEC's website at <http://www.sec.gov>.

Proxy Voting Policy. The Funds have delegated proxy voting responsibilities to the Adviser, subject to the Board's oversight. In delegating proxy responsibilities, the Board has directed that proxies be voted consistent with a Fund's and its shareholders' best interests and in compliance with all applicable proxy voting rules and regulations. The Trust and the Adviser have adopted proxy voting policies and guidelines for this purpose ("Proxy Voting Policies") which are attached to this SAI as Appendix A.

When available, information on how a Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 will be available (1) without charge, upon request, by calling 1-866-5Themes (1-866-584-3637) and (2) on the SEC's website at www.sec.gov.

THE ADMINISTRATOR AND TRANSFER AGENT

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Administrator"), serves as administrator and transfer agent for the Trust. Fund Administrator's principal address is 615 East Michigan Street, Milwaukee, Wisconsin 53202. Pursuant to a Fund Administration Servicing Agreement, a Transfer Agent Servicing Agreement and a Fund Accounting Servicing Agreement between the Trust and Fund Administrator, Fund Administrator provides the Trust with administrative and management services (other than investment advisory services), transfer and dividend disbursing agency services, and accounting services, including portfolio accounting services, tax accounting services and furnishing financial reports. In this capacity, Fund Administrator does not have any responsibility or authority for the management of the Funds, the determination of investment policy, or for any matter pertaining to the distribution of Fund Shares. As compensation for the administration, accounting and management services, the Adviser pays the Fund Administrator a fee based on each Fund's average daily net assets, subject to a minimum annual fee.

As of the date of this SAI, the Fund Administrator has not received any fees from the Adviser for its services to the Funds.

THE CUSTODIAN

Pursuant to a Custody Agreement, U.S. Bank National Association, 1555 North Rivercenter Drive, Suite 302, Milwaukee, Wisconsin 53212, serves as the custodian of each Fund's assets. The custodian holds and administers the assets in a Fund's portfolio. Pursuant to the ETF Custody Agreement, the custodian receives an annual fee from the Adviser based on the Trust's total average daily net assets, subject to a minimum annual fee and certain settlement charges. The custodian also is entitled to certain out-of-pocket expenses.

THE DISTRIBUTOR

ALPS Distributors, Inc. (the "Distributor"), is the principal underwriter for the Trust and distributes the Shares of the Funds. The Distributor's principal address is 1290 Broadway, Suite 1000, Denver, Colorado 80203. Shares are continuously offered for sale by the Distributor only in Creation Units. The Distributor has entered into a distribution agreement (the "Distribution Agreement") with the Trust. For the Funds, a Creation Unit is generally comprised of 10,000 Shares. The Distributor will not distribute Shares in amounts less than a Creation Unit.

Under the Distribution Agreement, the Distributor, as agent for the Trust, will solicit orders for the purchase of the Shares, provided that any subscriptions and orders will not be binding on the Trust until accepted by the Trust. The Distributor will deliver Prospectuses and, upon request, SAIs to persons purchasing Creation Units and will maintain records of orders placed with it. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934 (the "Exchange Act") and a member of FINRA.

The Distributor may also enter into agreements with securities dealers ("Soliciting Dealers") who will solicit purchases of Creation Units of Shares. Such Soliciting Dealers may also be Authorized Participants (as discussed in "Procedures for Purchase of Creation Units" below) or DTC participants (as defined below).

The Distribution Agreement will continue for two years from its effective date and is renewable thereafter. The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of each Fund and (ii) by the vote of a majority of the Trustees who are not "interested persons" of the Trust and have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement is terminable without penalty by the Trust on sixty (60) days' written notice when authorized either by majority vote of its outstanding voting Shares or by a vote of a majority of its Board (including a majority of the Independent Trustees), or by the Distributor on sixty (60) days' written notice, and will automatically terminate in the event of its assignment. The Distribution Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of the Distributor, or reckless disregard by it of its obligations thereunder, the Distributor shall not be liable for any action or failure to act in accordance with its duties thereunder.

Intermediary Compensation. The Adviser or its affiliates, out of their own resources and not out of the Funds' assets (i.e., without additional cost to the Funds or their shareholders), may pay certain broker dealers, banks and other financial intermediaries ("Intermediaries") for certain activities related to the Funds, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Funds, or for other activities, such as marketing and educational training or support. These arrangements are not financed by the Funds and, thus, do not result in increased Fund expenses. They are not reflected in the fees and expenses listed in the fees and expenses sections of the Funds' Prospectus and they do not change the price paid by investors for the purchase of Fund Shares or the amount received by a shareholder as proceeds from the redemption of Fund Shares.

Such compensation may be paid to Intermediaries that provide services to the Funds, including marketing and education support (such as through conferences, webinars and printed communications). The Adviser periodically assesses the advisability of continuing to make these payments. Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your adviser, broker or other investment professional, if any, may also be significant to such adviser, broker or investment professional. Because an Intermediary may make decisions about what investment options it will make available or recommend, and what services to provide in connection with various products, based on payments it receives or is eligible to receive, such payments create conflicts of interest between the Intermediary and its clients. For example, these financial incentives may cause the Intermediary to recommend the Funds over other investments. The same conflict of interest exists with respect to your financial adviser, broker or investment professionals if he or she receives similar payments from his or her Intermediary firm.

Intermediary information is current only as of the date of this SAI. Please contact your adviser, broker or other investment professional for more information regarding any payments his or her Intermediary firm may receive. Any payments made by the Adviser or its affiliates to an Intermediary may create the incentive for an Intermediary to encourage customers to buy Shares of the Funds.

Distribution and Service Plan. The Trust has adopted a Distribution and Service Plan (the “Plan”) in accordance with the provisions of Rule 12b-1 under the 1940 Act, which regulates circumstances under which an investment company may directly or indirectly bear expenses relating to the distribution of its Shares. No payments pursuant to the Plan are expected to be made during the twelve (12) month period from the date of this SAI. Rule 12b-1 fees to be paid by a Fund under the Plan may only be imposed after approval by the Board.

Continuance of the Plan must be approved annually by a majority of the Trustees of the Trust and by a majority of the Trustees who are not interested persons (as defined in the 1940 Act) of the Trust and have no direct or indirect financial interest in the Plan or in any agreements related to the Plan (“Qualified Trustees”). The Plan requires that quarterly written reports of amounts spent under the Plan and the purposes of such expenditures be furnished to and reviewed by the Trustees. The Plan may not be amended to increase materially the amount that may be spent thereunder without approval by a majority of the outstanding Shares of the Fund. All material amendments of the Plan will require approval by a majority of the Trustees of the Trust and of the Qualified Trustees.

The Plan provides that each Fund pays the Distributor an annual fee of up to a maximum of 0.25% of the average daily net assets of the Shares. Under the Plan, the Distributor may make payments pursuant to written agreements to financial institutions and intermediaries such as banks, savings and loan associations and insurance companies including, without limit, investment counselors, broker-dealers and the Distributor’s affiliates and subsidiaries (collectively, “Agents”) as compensation for services and reimbursement of expenses incurred in connection with distribution assistance. The Plan is characterized as a compensation plan since the distribution fee will be paid to the Distributor without regard to the distribution expenses incurred by the Distributor or the amount of payments made to other financial institutions and intermediaries. The Trust intends to operate the Plan in accordance with its terms and with the Financial Industry Regulatory Authority (“FINRA”) rules concerning sales charges.

Under the Plan, subject to the limitations of applicable law and regulations, each Fund is authorized to compensate the Distributor up to the maximum amount to finance any activity primarily intended to result in the sale of Creation Units of the Fund or for providing or arranging for others to provide shareholder services and for the maintenance of shareholder accounts. Such activities may include, but are not limited to: (i) delivering copies of a Fund’s then current reports, prospectuses, notices, and similar materials, to prospective purchasers of Creation Units; (ii) marketing and promotional services, including advertising; (iii) paying the costs of and compensating others, including APs with whom the Distributor has entered into written Authorized Participant Agreements, for performing shareholder servicing on behalf of a Fund; (iv) compensating certain APs for providing assistance in distributing the Creation Units of a Fund, including the travel and communication expenses and salaries and/or commissions of sales personnel in connection with the distribution of the Creation Units of a Fund; (v) payments to financial institutions and intermediaries such as banks, savings and loan associations, insurance companies and investment counselors, broker-dealers, mutual fund supermarkets and the affiliates and subsidiaries of the Trust’s service providers as compensation for services or reimbursement of expenses incurred in connection with distribution assistance; (vi) facilitating communications with beneficial owners of Shares, including the cost of providing (or paying others to provide) services to beneficial owners of Shares, including, but not limited to, assistance in answering inquiries related to Shareholder accounts; and (vii) such other services and obligations as are set forth in the Distribution Agreement.

LEGAL COUNSEL

Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, Kansas 66211, serves as legal counsel for the Trust.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd., 1835 Market Street, Suite 310, Philadelphia, Pennsylvania 19103, serves as the independent registered public accounting firm for the Funds.

BROKERAGE TRANSACTIONS

The policy of the Trust regarding purchases and sales of securities for the Funds is that primary consideration will be given to obtaining the most favorable prices and efficient executions of transactions. Consistent with this policy, when securities transactions are affected on a stock exchange, the Trust's policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. The Trust believes that a requirement always to seek the lowest possible commission cost could impede effective portfolio management and preclude the Funds from obtaining a high quality of brokerage and research services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Adviser will rely upon its experience and knowledge regarding commissions generally charged by various brokers and on its judgment in evaluating the brokerage services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise, as in most cases, an exact dollar value for those services is not ascertainable. The Trust has adopted policies and procedures that prohibit the consideration of sales of Fund Shares as a factor in the selection of a broker or dealer to execute its portfolio transactions.

The Adviser owes a fiduciary duty to its clients to seek to provide best execution on trades effected. In selecting a broker/dealer for each specific transaction, the Adviser chooses the broker/dealer deemed most capable of providing the services necessary to obtain the most favorable execution. "Best execution" is generally understood to mean the most favorable cost or net proceeds reasonably obtainable under the circumstances. The full range of brokerage services applicable to a particular transaction may be considered when making this judgment, which may include, but is not limited to: liquidity, price, commission, timing, aggregated trades, capable floor brokers or traders, competent block trading coverage, ability to position, capital strength and stability, reliable and accurate communications and settlement processing, use of automation, knowledge of other buyers or sellers, arbitrage skills, administrative ability, underwriting and provision of information on a particular security or market in which the transaction is to occur. The specific criteria will vary depending upon the nature of the transaction, the market in which it is executed, and the extent to which it is possible to select from among multiple broker/dealers. The Adviser will also use electronic crossing networks ("ECNs") when appropriate.

Subject to the foregoing policies, brokers or dealers selected to execute a Fund's portfolio transactions may include the Fund's Authorized Participants (as discussed in "Procedures for Purchase of Creation Units" below) or their affiliates. An Authorized Participant or its affiliates may be selected to execute a Fund's portfolio transactions in conjunction with an all-cash creation unit order or an order including "cash-in-lieu" (as described below under "Purchase and Redemption of Shares in Creation Units"), so long as such selection is in keeping with the foregoing policies. As described below under "Purchase and Redemption of Shares in Creation Units—Creation Transaction Fee" and "—Redemption Transaction Fee," a Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, e.g., for creation orders that facilitate the changes to a Fund's portfolio in a more tax efficient manner than could be achieved without such order, even if the decision to not charge a variable fee could be viewed as benefiting the Authorized Participant or its affiliate selected to execute the Fund's portfolio transactions in connection with such orders.

The Adviser may use a Fund's assets for, or participate in, third party soft dollar arrangements, in addition to receiving proprietary research from various full-service brokers, the cost of which is bundled with the cost of the broker's execution services. The Adviser does not "pay up" for the value of any such proprietary research. Section 28(e) of the Exchange Act permits the Adviser, under certain circumstances, to cause a Fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. The Adviser may receive a variety of research services and information on many topics, which it can use in connection with its management responsibilities with respect to the various accounts over which it exercises investment discretion or otherwise provides investment advice. The research services may include qualifying order management systems, portfolio attribution and monitoring services and computer software and access charges which are directly related to investment research. Accordingly, a Fund may pay a broker commission higher than the lowest available commission in recognition of the broker's provision of such services to the Adviser, but only if the Adviser determines the total commission (including the soft dollar benefit) is comparable to the best commission rate that could be expected to be received from other brokers. The amount of soft dollar benefits received depends on the amount of brokerage transactions effected with the brokers. A conflict of interest exists because there is an incentive to: 1) cause clients to pay a higher commission than the firm might otherwise be able to negotiate; 2) cause clients to engage in more securities transactions than would otherwise be optimal; and 3) only recommend brokers that provide soft dollar benefits.

The Adviser faces a potential conflict of interest when it uses client trades to obtain brokerage or research services. This conflict exists because the Adviser is able to use the brokerage or research services to manage client accounts without paying cash for such services, which reduces the Adviser's expenses to the extent that the Adviser would have purchased such products had they not been provided by brokers. Section 28(e) permits the Adviser to use brokerage or research services for the benefit of any account it manages. Certain accounts managed by the Adviser may generate soft dollars used to purchase brokerage or research services that ultimately benefit other accounts managed by the Adviser, effectively cross subsidizing the other accounts managed by the Adviser that benefit directly from the product. The Adviser may not necessarily use all of the brokerage or research services in connection with managing a Fund whose trades generated the soft dollars used to purchase such products.

The Adviser is responsible, subject to oversight by the Board, for placing orders on behalf of the Funds for the purchase or sale of portfolio securities. If purchases or sales of portfolio securities of a Fund and one or more other investment companies or clients supervised by the Adviser are considered at or about the same time, transactions in such securities are allocated among the several investment companies and clients in a manner deemed equitable and consistent with its fiduciary obligations to all by the Adviser. In some cases, this procedure could have a detrimental effect on the price or volume of the security so far as a Fund is concerned. However, in other cases, it is possible that the ability to participate in volume transactions and to negotiate lower brokerage commissions will be beneficial to the Funds. The primary consideration is prompt execution of orders at the most favorable net price.

A Fund may deal with affiliates in principal transactions to the extent permitted by exemptive order or applicable rule or regulation.

Brokerage with Fund Affiliates. The Funds may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Funds, the Adviser, or the Distributor for a commission in conformity with the 1940 Act, the Exchange Act and rules promulgated by the SEC. These rules require that commissions paid to the affiliate by a Fund for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts which are "reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time." The Trustees, including those who are not "interested persons" of the Funds, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically. As of the date of this SAI, the Funds have not paid brokerage commissions to any registered broker-dealer affiliates of the Fund, the Adviser, or the Distributor.

Securities of “Regular Broker-Dealers.” Each Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the 1940 Act) which it may hold at the close of its most recent fiscal year. “Regular brokers and dealers” of the Trust are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Trust’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Trust; or (iii) sold the largest dollar amounts of the Trust’s Shares. As of the date of this SAI, the Funds did not own securities of its regular brokers or dealers.

The Funds are also required to identify any brokerage transactions during their most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Fund. As of the date of this SAI, the Funds did not have any such transactions or related commissions paid for research services.

Brokerage Commissions. Since the Funds are new no brokerage commissions were paid by the Funds as of the date of this SAI.

Directed Brokerage. As of the date of this SAI, the Funds have not paid any commissions on brokerage transactions directed to brokers pursuant to an agreement or understanding whereby the broker provides research or other brokerage services to the Adviser.

Portfolio Turnover. Portfolio turnover may vary from year to year, as well as within a year. High turnover rates are likely to result in comparatively greater brokerage expenses. The overall reasonableness of brokerage commissions is evaluated by the Adviser based upon its knowledge of available information as to the general level of commissions paid by the other institutional investors for comparable services. Since the Funds are new no portfolio turnover information is available. High portfolio turnover levels - those in excess of 100% - can lead to additional transaction costs and possible tax consequences.

ADDITIONAL INFORMATION CONCERNING THE TRUST

The Trust’s Agreement and Declaration of Trust (the “Declaration of Trust”) authorizes the issuance of an unlimited number of funds and Shares of each Fund. Each Share of each Fund represents an equal proportionate interest in any given Fund with any given Share. Shares are entitled upon liquidation to a pro rata share in the net assets of the Funds. Shareholders have no preemptive rights. The Declaration of Trust provides that the Trustees may create additional series or classes of shares. All consideration received by the Trust for shares of any additional funds and all assets in which such consideration is invested would belong to that fund and would be subject to the liabilities related thereto. Share certificates representing shares will not be issued. Each Fund’s Shares, when issued, are fully paid and non-assessable.

Each Share has one vote with respect to matters upon which a shareholder vote is required, consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all funds of the Trust vote together as a single class, except that if the matter being voted on affects only a particular fund it will be voted on only by that fund and if a matter affects a particular fund differently from other funds, that fund will vote separately on such matter. As a Delaware statutory trust, the Trust is not required, and does not intend, to hold annual meetings of shareholders. Approval of shareholders will be sought, however, for certain changes in the operation of the Trust and for the election of Trustees under certain circumstances. Upon the written request of shareholders owning at least 10% of the Trust’s shares, the Trust will call for a meeting of shareholders to consider the removal of one or more Trustees and other certain matters. In the event that such a meeting is requested, the Trust will provide appropriate assistance and information to the shareholders requesting the meeting.

Under the Declaration of Trust, the Trustees have the power to liquidate a Fund without shareholder approval. While the Trustees have no present intention of exercising this power, they may do so if a Fund fails to reach a viable size within a reasonable amount of time or for such other reasons as may be determined by the Board.

As described further in the Declaration of Trust, no person, other than a Trustee, who is not a Shareholder of a particular Series (or class) shall be entitled to bring any derivative action, suit or other proceeding on behalf of the Trust with respect to such Series (or class). No Shareholder of a Series or (or class) may maintain a derivative action on behalf of the Trust with respect to such Series (or class) unless holders of a least ten percent (10%) of the outstanding Shares of such Series (or class) join in the bringing of such action; except that this provision will not apply to claims brought under the U.S. federal securities laws. In addition to the requirements set forth in Section 3816 of the Delaware Act, a Shareholder may bring a derivative action on behalf of the Trust with respect to a Series (or class) only if the following conditions are met: (i) the Shareholder or Shareholders must make a pre-suit demand upon the Trustees to bring the subject action unless an effort to cause the Trustees to bring such an action is not likely to succeed; and a demand on the Trustees shall only be deemed not likely to succeed and therefore excused if a majority of the Trustees, or a majority of any committee established to consider the merits of such action, has a personal financial interest in the transaction at issue, and a Trustee shall not be deemed interested in a transaction or otherwise disqualified from ruling on the merits of a Shareholder demand by virtue of the fact that such Trustee receives remuneration for his service as a Trustee of the Trust or as a trustee or director of one or more investment companies that are under common management with or otherwise affiliated with the Trust; and (ii) unless a demand is not required under clause (i) of this paragraph, the Trustees must be afforded a reasonable amount of time to consider such Shareholder request and to investigate the basis of such claim; and the Trustees shall be entitled to retain counsel or other advisors in considering the merits of the request and may require an undertaking by the Shareholders making such request to reimburse the Trust for the expense of any such advisors in the event that the Trustees determine not to bring such action (except that the provision allowing the Trustees to require an undertaking by the Shareholders to reimburse the Trust for the expense of any such advisors will not apply to claims brought under the U.S. federal securities laws).

Role of the Depository Trust Company (“DTC”). DTC acts as Securities Depository for the Shares of the Trust. Shares of the Funds are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (“DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities’ certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which (and/or their representatives) own DTC. More specifically, DTC is a subsidiary of the Depository Trust and Clearing Corporation, which is owned by its member firms, including international broker dealers, correspondent and clearing banks, mutual fund companies and investment banks. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (“Indirect Participants”).

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as “Beneficial Owners”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares. No Beneficial Owner shall have the right to receive a certificate representing such Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depository Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Funds held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form and number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares of the Trust. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Funds as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants. DTC may decide to discontinue its service with respect to Shares of the Trust at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

LIMITATION OF TRUSTEES' LIABILITY

The Declaration of Trust provides that a Trustee shall be liable only for his or her own willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of the office of Trustee, and shall not be liable for errors of judgment or mistakes of fact or law. The Declaration of Trust also provides that the Trust shall indemnify each person who is, or has been, a Trustee, officer, employee or agent of the Trust, any person who is serving or has served at the Trust's request as a Trustee, officer, trustee, employee or agent of another organization in which the Trust has any interest as a shareholder, creditor or otherwise to the fullest extent provided by law and in the manner provided in the By-laws. However, nothing in the Declaration of Trust shall protect or indemnify a Trustee against any liability for his or her willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of the office of Trustee. Nothing contained in this section attempts to disclaim a Trustee's individual liability in any manner inconsistent with the federal securities laws.

PURCHASE AND REDEMPTION OF SHARES IN CREATION UNITS

The Trust issues and sells Shares of the Funds only: (i) in Creation Units on a continuous basis through the Distributor, without a sales load (but subject to transaction fees, if applicable), at their NAV per share next determined after receipt of an order, on any Business Day, in proper form pursuant to the terms of the Authorized Participant Agreement ("Participant Agreement"); or (ii) pursuant to the Dividend Reinvestment Service (defined below). The NAV of a Fund's Shares is calculated each Business Day as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m., Eastern Time on each day that the New York Stock Exchange is open. The Funds will not issue fractional Creation Units. A "Business Day" is any day on which the New York Stock Exchange and Trust are open for business.

Fund Deposits. The consideration for purchase of a Creation Unit of a Fund generally consists of the in-kind deposit of a designated portfolio of securities (the "Deposit Securities") per each Creation Unit and the Cash Component (defined below), computed as described below. Notwithstanding the foregoing, the Trust reserves the right to permit or require the substitution of a "cash in lieu" amount ("Deposit Cash") to be added to the Cash Component to replace any Deposit Security. When accepting purchases of Creation Units for all or a portion of Deposit Cash, a Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser.

Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of a Fund. The “Cash Component” is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the market value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (*i.e.*, the net asset value per Creation Unit exceeds the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such positive amount. If the Cash Component is a negative number (*i.e.*, the net asset value per Creation Unit is less than the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the market value of the Deposit Securities or Deposit Cash, as applicable. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, if applicable, which shall be the sole responsibility of the Authorized Participant (as defined below).

The Funds, through NSCC, will make available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time), the list of the names and the required number of Shares of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposits (based on information at the end of the previous Business Day) for each Fund. Such Fund Deposits are subject to any applicable adjustments as described below, to effect purchases of Creation Units of a Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

The identity and number of Shares of the Deposit Securities or the amount of Deposit Cash, as applicable, required for a Fund Deposit for a Creation Unit changes as rebalancing adjustments and corporate action events are reflected from time to time by the Adviser with a view to the investment objective of a Fund. However, there will be no intraday changes to Deposit Securities or Deposit Cash except to correct errors in the published list.

The Trust reserves the right to permit or require the substitution of an amount of cash (that is a “cash in lieu” amount) to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC, the Clearing Process (discussed below), the Federal Reserve System for U.S. Treasury Securities (discussed below) or for other similar reasons. The Trust also reserves the right to permit or require a “cash in lieu” amount where the delivery of Deposit Securities by the Authorized Participant (as described below) would be restricted under the securities laws or where delivery of Deposit Securities to the Authorized Participant would result in the disposition of Deposit Securities by the Authorized Participant becoming restricted under the securities laws, and in certain other situations. The adjustments described above will reflect changes, known to the Adviser on the date of announcement to be in effect by the time of delivery of the Fund Deposit, resulting from certain corporate actions.

On a given Business Day, the Trust may require all Authorized Participants purchasing Creation Units on that day to deposit an amount of cash (that is a “cash in lieu” amount) to replace any Deposit Security that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below). The Trust also reserves the right to permit a “cash in lieu” to replace any Deposit Security which may not be available in sufficient quantity or which may not be eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting (“custom orders”). The Trust may in its discretion require an Authorized Participant to purchase Creation Units of the Fund in cash, rather than in-kind. On a given Business Day, the Trust may announce before the open of trading that all purchases of Creation Units of the Fund on that day will be made entirely in cash or, upon receiving a purchase order for Creation Units of the Fund from an Authorized Participant, the Trust may determine to require that purchase to be made entirely in cash.

Procedures for Purchase of Creation Units. To be eligible to place orders with the Distributor to purchase a Creation Unit of the Funds, an entity must be (i) a “Participating Party”, *i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the “Clearing Process”), a clearing agency that is registered with the SEC; or (ii) a DTC Participant. In addition, each Participating Party or DTC Participant (each, an “Authorized Participant”) must execute a Participant Agreement that has been agreed to by the Distributor, and that has been accepted by the Transfer Agent and the Trust, with respect to purchases and redemptions of Creation Units. Each Authorized Participant will agree, pursuant to the terms of a Participant Agreement, on behalf of itself or any investor on whose behalf it will act, to certain conditions, including that it will pay to the Trust, an amount of cash sufficient to pay the Cash Component together with the creation transaction fee (described below) and any other applicable fees and taxes.

All orders to purchase Shares directly from the Funds must be placed for one or more Creation Units and in the manner and by the time set forth in the Participant Agreement and/or applicable order form. The date on which an order to purchase Creation Units (or an order to redeem Creation Units, as set forth below) of such Funds is received and accepted is referred to as the “Order Placement Date.”

The order cut-off time for orders to purchase Creation Units for each Fund is expected to be 4:00 p.m. Eastern Time, which time may be modified by a Fund from time-to-time by amendment to the Participant Agreement and/or applicable order form.

An Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order, (*e.g.*, to provide for payments of cash, when required). Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to purchase Shares directly from the Funds in Creation Units have to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

On days when the Exchange closes earlier than normal, the Funds may require orders to create Creation Units to be placed earlier in the day. In addition, if a market or markets on which the Funds’ investments are primarily traded is closed, the Funds will also generally not accept orders on such day(s). Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement and in accordance with the applicable order form. On behalf of the Funds, the Distributor will notify the Custodian of such order. The Custodian will then provide such information to the appropriate local sub-custodian(s). Those placing orders through an Authorized Participant should allow sufficient time to permit proper submission of the purchase order to the Distributor by the cut-off time on such Business Day, as designated in the Participant Agreement. Economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Distributor or an Authorized Participant.

Fund Deposits must be delivered by an Authorized Participant through the Federal Reserve System (for cash) or through DTC (for corporate securities), through a sub-custody agent (for foreign securities) and/or through such other arrangements allowed by the Trust or its agents. With respect to foreign Deposit Securities, the Custodian shall cause the sub-custodian of the Funds to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, such Deposit Securities (or Deposit Cash for all or a part of such securities, as permitted or required), with any appropriate adjustments as advised by the Trust. Foreign Deposit Securities must be delivered to an account maintained at the applicable local sub-custodian. The Fund Deposit transfer must be ordered by the Authorized Participant in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities or Deposit Cash, as applicable, to the account of a Fund or its agents by no later than 12:00 p.m. Eastern Time (or such other time as specified by the Trust) on the Settlement Date. If a Fund or its agents do not receive all of the Deposit Securities, or the required Deposit Cash in lieu thereof, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to a Fund for losses, if any, resulting therefrom. The “Settlement Date” for the Funds is generally the second Business Day after the Order Placement Date. All questions as to the number of Deposit Securities or Deposit Cash to be delivered, as applicable, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities or cash, as applicable, will be determined by the Trust, whose determination shall be final and binding. The amount of cash represented by the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than the Settlement Date. If the Cash Component and the Deposit Securities or Deposit Cash, as applicable, are not received by the Custodian in a timely manner by the Settlement Date, the creation order may be cancelled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then current NAV of a Fund.

The order shall be deemed to be received on the Order Placement Date provided that the order is placed in proper form prior to the applicable cut-off time and the Deposit Cash, as applicable, and the Cash Component in the appropriate amount are deposited by 2:00 p.m. or 3:00 p.m., Eastern Time (as set forth on the applicable order form), with the Custodian on the Settlement Date. If the order is not placed in proper form as required, or Deposit Cash, as applicable, and the Cash Component in the appropriate amount are not received by 2:00 p.m. or 3:00 p.m., Eastern Time (as set forth on the applicable order form) on the Settlement Date, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Funds for losses, if any, resulting therefrom. Notwithstanding the foregoing, the Trust may, but is not required to, permit orders until 4:00 p.m., Eastern time, or until the market close (in the event the Exchange closes early). A creation request is considered to be in "proper form" if all procedures set forth in the Participant Agreement, order form and this SAI are properly followed.

Issuance of a Creation Unit. Except as provided herein, Creation Units will not be issued until the transfer of good title to the Trust of the Deposit Securities or payment of Deposit Cash, as applicable, and the payment of the Cash Component have been completed. When the sub-custodian has confirmed to the Custodian that the required Deposit Securities (or the cash value thereof) have been delivered to the account of the relevant sub-custodian or sub-custodians, the Distributor and the Adviser shall be notified of such delivery, and the Trust will issue and cause the delivery of the Creation Units. The delivery of Creation Units so created generally will occur no later than the second Business Day following the day on which the purchase order is deemed received by the Distributor. Each Fund reserves the right to settle Creation Unit transactions on a basis other than T+2, including a shorter settlement period, if necessary or appropriate under the circumstances and compliant with applicable law. For example, each Fund reserves the right to settle Creation Unit transactions on a basis other than T+2 in order to accommodate non-U.S. market holiday schedules, to account for different treatment among non-U.S. and U.S. markets of dividend record dates and ex-dividend dates (i.e., the last day the holder of a security can sell the security and still receive dividends payable on the security) and in certain other circumstances. The Authorized Participant shall be liable to a Fund for losses, if any, resulting from unsettled orders.

Creation Units may be issued in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the net asset value of the Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) an additional amount of cash equal to a percentage of the market value as set forth in the Participant Agreement, of the undelivered Deposit Securities (the "Additional Cash Deposit"), which shall be maintained in a separate non-interest bearing collateral account. The Authorized Participant must deposit with the Custodian the Additional Cash Deposit, as applicable, by 12:00 p.m. Eastern Time (or such other time as specified by the Trust) on the Settlement Date. If a Fund or its agents do not receive the Additional Cash Deposit in the appropriate amount, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to the applicable percentage, as set forth in the Participant Agreement, of the daily marked to market value of the missing Deposit Securities. The Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as described below under "Creation Transaction Fee" may be charged. The delivery of Creation Units so created generally will occur no later than the Settlement Date.

Acceptance of Orders of Creation Units. The Trust reserves the right to reject an order for Creation Units transmitted to it by the Distributor with respect to a Fund including, without limitation, if (a) the order is not in proper form; (b) the Deposit Securities or Deposit Cash, as applicable, delivered by the Participant are not as disseminated through the facilities of the NSCC for that date by the Custodian; (c) the investor(s), upon obtaining the Shares ordered, would own 80% or more of the currently outstanding Shares of a Fund; (d) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (e) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Trust, be unlawful; or (f) in the event that circumstances outside the control of the Trust, the Custodian, the Transfer Agent and/or the Adviser make it for all practical purposes not feasible to process orders for Creation Units.

Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Distributor, the Custodian, a sub-custodian, the Transfer Agent, DTC, NSCC, Federal Reserve System, or any other participant in the creation process, and other extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall either of them incur any liability for the failure to give any such notification. The Trust, the Transfer Agent, the Custodian and the Distributor shall not be liable for the rejection of any purchase order for Creation Units.

All questions as to the number of Shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

Creation Transaction Fee. A fixed purchase (*i.e.*, creation) transaction fee, payable to the Funds' custodian, may be imposed for the transfer and other transaction costs associated with the purchase of Creation Units ("Creation Order Costs"). The standard fixed creation transaction fee for each Fund, regardless of the number of Creation Units created in the transaction, is set forth in the table below. A Fund may adjust the standard fixed creation transaction fee from time to time. The fixed creation fee may be waived on certain orders if a Fund's custodian has determined to waive some or all of the Creation Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

Name of Fund	Fixed Creation Transaction Fee
Leverage Shares 2X Long SPCX Daily ETF	\$300
Leverage Shares 2X Short SPCX Daily ETF	\$300

In addition, a variable fee, payable to a Fund, of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (*e.g.*, brokerage, taxes) involved with buying the securities with cash. A Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, *e.g.*, for creation orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order. Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Fund to their account or on their order.

Risks of Purchasing Creation Units. There are certain legal risks unique to investors purchasing Creation Units directly from a Fund. Because Shares may be issued on an ongoing basis, a “distribution” of Shares could be occurring at any time. Certain activities that a shareholder performs as a dealer could, depending on the circumstances, result in the shareholder being deemed a participant in the distribution in a manner that could render the shareholder a statutory underwriter and subject to the prospectus delivery and liability provisions of the Securities Act. For example, a shareholder could be deemed a statutory underwriter if it purchases Creation Units from a Fund, breaks them down into the constituent Shares, and sells those Shares directly to customers, or if a shareholder chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary-market demand for Shares. Whether a person is an underwriter depends upon all of the facts and circumstances pertaining to that person’s activities, and the examples mentioned here should not be considered a complete description of all the activities that could cause you to be deemed an underwriter.

Dealers who are not “underwriters” but are participating in a distribution (as opposed to engaging in ordinary secondary-market transactions), and thus dealing with Shares as part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act.

Redemption. Shares may be redeemed only in Creation Units at their net asset value next determined after receipt of a redemption request in proper form by the Funds through the Transfer Agent and only on a Business Day. Redemption requests must be placed by or through an Authorized Participant. EXCEPT UPON LIQUIDATION OF A FUND, THE TRUST WILL NOT REDEEM SHARES IN AMOUNTS LESS THAN CREATION UNITS. Investors must accumulate enough Shares in the secondary market to constitute a Creation Unit to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Funds, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time) on each Business Day, the list of the names and Share quantities of each Fund’s portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day (“Fund Securities”). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit are paid either in-kind or in cash, or combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Funds, redemption proceeds for a Creation Unit will consist of Fund Securities -- as announced by the Custodian on the Business Day of the request for redemption received in proper form plus cash in an amount equal to the difference between the net asset value of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the “Cash Redemption Amount”), less a fixed redemption transaction fee as set forth below. In the event that the Fund Securities have a value greater than the net asset value of the Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust’s discretion, an Authorized Participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.

Redemption Transaction Fee. A fixed redemption transaction fee, payable to the Funds’ custodian, may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units (“Redemption Order Costs”). The standard fixed redemption transaction fee for each Fund, regardless of the number of Creation Units redeemed in the transaction, is set forth in the table below. A Fund may adjust the redemption transaction fee from time to time. The fixed redemption fee may be waived on certain orders if the Fund’s custodian has determined to waive some or all of the Redemption Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

Leverage Shares 2X Long SPCX Daily ETF	\$300
Leverage Shares 2X Short SPCX Daily ETF	\$300

In addition, a variable fee, payable to a Fund, of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for cash redemptions, non-standard orders, or partial cash redemptions (when cash redemptions are available) of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with selling portfolio securities to satisfy a cash redemption. A Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, e.g., for redemption orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Fund to their account or on their order.

Procedures for Redemption of Creation Units. Orders to redeem Creation Units of each Fund must be submitted in proper form to the Transfer Agent prior to 4:00 p.m. Eastern Time.

A redemption request is considered to be in "proper form" if (i) an Authorized Participant has transferred or caused to be transferred to the Trust's Transfer Agent the Creation Unit(s) being redeemed through the book-entry system of DTC so as to be effective by the time as set forth in the Participant Agreement and (ii) a request in form satisfactory to the Trust is received by the Transfer Agent from the Authorized Participant on behalf of itself or another redeeming investor within the time periods specified in the Participant Agreement. If the Transfer Agent does not receive the investor's Shares through DTC's facilities by the times and pursuant to the other terms and conditions set forth in the Participant Agreement, the redemption request shall be rejected.

The Authorized Participant must transmit the request for redemption, in the form required by the Trust, to the Transfer Agent in accordance with procedures set forth in the Authorized Participant Agreement. Investors should be aware that their particular broker may not have executed an Authorized Participant Agreement, and that, therefore, requests to redeem Creation Units may have to be placed by the investor's broker through an Authorized Participant who has executed an Authorized Participant Agreement. Investors making a redemption request should be aware that such request must be in the form specified by such Authorized Participant. Investors making a request to redeem Creation Units should allow sufficient time to permit proper submission of the request by an Authorized Participant and transfer of the Shares to the Trust's Transfer Agent; such investors should allow for the additional time that may be required to effect redemptions through their banks, brokers or other financial intermediaries if such intermediaries are not Authorized Participants.

In connection with taking delivery of Shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or Authorized Participant acting on behalf of such Shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will be made within two business days of the trade date. However, each Fund reserves the right to settle redemption transactions on a basis other than T+2, including a shorter settlement period, if necessary or appropriate under the circumstances and compliant with applicable law. For example, each Fund reserves the right to settle redemption transactions on a basis other than T+2 in order to accommodate non-U.S. market holiday schedules, to account for different treatment among non-U.S. and U.S. markets of dividend record dates and dividend ex-dates (i.e., the last date the holder of a security can sell the security and still receive dividends payable on the security sold) and in certain other circumstances consistent with applicable law.

Additional Redemption Procedures. In connection with taking delivery of Shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or Authorized Participant acting on behalf of such Shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will be made within three business days of the trade date. The Trust may, in its discretion, exercise its option to redeem such Shares in cash, and the redeeming Shareholders will be required to receive its redemption proceeds in cash.

In addition, an investor may request a redemption in cash that a Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares of the Funds next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). A Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in net asset value.

Redemptions of Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and each Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of Creation Units may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming investor of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment. Further, an Authorized Participant that is not a "qualified institutional buyer," ("QIB") as such term is defined under Rule 144A of the Securities Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A. An Authorized Participant may be required by the Trust to provide a written confirmation with respect to QIB status to receive Fund Securities.

Because the portfolio securities of the Funds may trade on other exchanges on days that the Exchange is closed or are otherwise not Business Days for the Funds, shareholders may not be able to redeem their Shares of the Funds, or to purchase or sell Shares of the Funds on the Exchange, on days when the NAV of the Funds could be significantly affected by events in the relevant foreign markets.

The right of redemption may be suspended or the date of payment postponed with respect to each Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the Funds or determination of the NAV of the Shares is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

Required Early Acceptance of Orders. Notwithstanding the foregoing, as described in the Participant Agreement and/or applicable order form, a Fund may require orders to be placed or notification of orders to be received prior to the trade date, as described in the Participant Agreement or the applicable order form, to receive the trade date's net asset value. Orders to purchase Shares of the Funds that are submitted on the Business Day immediately preceding a holiday or a day (other than a weekend) that the equity markets in the relevant foreign market are closed will not be accepted. Authorized Participants may be notified that the cut-off time for an order may be earlier on a particular business day, as described in the Participant Agreement and the order form.

DETERMINATION OF NAV

Net asset value per Share for the Funds is computed by dividing the value of the net assets of a Fund (*i.e.*, the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fees, are accrued daily and taken into account for purposes of determining net asset value. The net asset value of a Fund is calculated by the Custodian and determined at the close of the regular trading session on the New York Stock Exchange (ordinarily 4:00 p.m., Eastern Time) on each day that such exchange is open, provided that fixed-income assets may be valued as of the announced closing time for trading in fixed-income instruments on any day that the Securities Industry and Financial Markets Association ("SIFMA") announces an early closing time.

In calculating a Fund's net asset value per Share, the Fund's investments are generally valued using market valuations. A market valuation generally means a valuation (i) obtained from an exchange, a pricing service, or a major market maker (or dealer), (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service, or a major market maker (or dealer) or (iii) based on amortized cost. In the case of shares of other funds that are not traded on an exchange, a market valuation means such fund's published net asset value per share. A price obtained from a pricing service based on such pricing service's valuation matrix may be considered a market valuation. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions and Taxes."

General Policies. With respect to the Funds, dividends from net investment income, if any, are declared and paid quarterly. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Funds may make distributions on a more frequent basis to improve index tracking or to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

The Trust makes additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the Funds, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Code Section 4982. Management of the Funds reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Dividend Reinvestment Service. The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Funds through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the Funds at NAV per Share. Distributions reinvested in additional Shares of the Funds will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

FEDERAL INCOME TAXES

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Funds and their shareholders. The discussion reflects applicable U.S. federal income tax laws as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the "IRS"), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Funds and their shareholders (including shareholders owning large positions in a Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Funds.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust (“REIT”), insurance company, RIC, individual retirement account (“IRA”), other tax-exempt entity, or dealer in securities. Furthermore, this discussion does not reflect possible application of the alternative minimum tax (“AMT”). Unless otherwise noted, this discussion assumes shares of the Funds are held by U.S. shareholders (defined below) and that such shares are held as capital assets.

A U.S. shareholder is a beneficial owner of shares of a Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions or a trust that has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

A “Non-U.S. shareholder” is a beneficial owner of shares of a Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds shares of a Fund, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A partner of a partnership that will hold shares of a Fund should consult its own tax adviser with respect to the purchase, ownership, and disposition of shares of the Fund by the partnership.

Taxation as a RIC. Each Fund intends to qualify and remain qualified as a RIC under the Internal Revenue Code of 1986, as amended (the “Code”). There can be no assurance that each Fund will so qualify. A Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, a Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such shares, securities or currencies and (ii) net income derived from an interest in a “qualified publicly traded partnership” (the “Income Test.”) A “qualified publicly traded partnership” is generally defined as a publicly traded partnership under Code Section 7704. Income derived from a partnership (other than a qualified publicly traded partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by the Fund in the same manner as realized by the partnership or trust.

If a RIC fails the Income Test and such failure was due to reasonable cause and not willful neglect, generally it will not be subject to the U.S. federal income tax rate applicable to corporations. Instead, the amount of the penalty for non-compliance is the amount by which the non-qualifying income exceeds one-ninth of the qualifying gross income.

With respect to the asset-diversification requirement, each Fund must diversify its holdings so that, at the end of each quarter of each taxable year (i) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund’s total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund’s total assets is invested in securities other than U.S. government securities or the securities of other RICs of (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships (the “Asset Test”).

If a RIC fails the Asset Test, such RIC, has a 6-month period to correct any failure without incurring a penalty if such failure is “de minimis.”

Similarly, if a RIC fails the Asset Test and the failure is not de minimis, a RIC can cure the failure if: (i) the RIC files with the U.S. Treasury Department a description of each asset that caused the RIC to fail the Asset Test; (ii) the failure is due to reasonable cause and not willful neglect; and (iii) the failure is cured within six months (or such other period specified by the U.S. Treasury Department). In such cases, a tax is imposed on the RIC equal to the greater of: (i) \$50,000 or (ii) an amount determined by multiplying the highest corporate U.S. federal income tax rate (currently 21%) by the amount of net income generated during the period of the Asset Test failure by the assets that caused the RIC to fail the Asset Test.

If a Fund qualifies as a RIC and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its “investment company taxable income” as that term is defined in the Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed (the “Distribution Test”), the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gains, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to regular corporate U.S. federal income tax rates (currently at a maximum rate of 21%). Each Fund intends to distribute at least annually substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

Each Fund will generally be subject to a nondeductible 4% U.S. federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. To avoid the 4% U.S. federal excise tax, the required minimum distribution is generally equal to the sum of (i) 98.2% of a Fund’s ordinary income (computed on a calendar year basis), (ii) 98% of the Fund’s capital gain net income (generally computed for the one-year period ending on October 31) and (iii) any income realized, but not distributed, and on which the Fund paid no U.S. federal income tax in preceding years. The Funds generally intend to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

A Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if a Fund holds debt obligations that are treated under applicable U.S. federal income tax rules as having original issue discount (“OID”), such as debt instruments with payment of in kind interest or, in certain cases, with increasing interest rates or that are issued with warrants, the Fund must include in income each year a portion of the OID that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any OID accrued will be included in a Fund’s “investment company taxable income” (discussed below) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the Distribution Test, even though it will not have received an amount of cash that corresponds with the accrued income.

A RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term). These capital loss carryforwards may be utilized in future years to offset net realized capital gains of the Funds, if any, prior to distributing such gains to shareholders.

Except as set forth below in “Failure to Qualify as a RIC,” the remainder of this discussion assumes that each Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC. If a Fund is unable to satisfy the Distribution Test or otherwise fails to qualify as a RIC in any year, it will be subject to corporate U.S. federal income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to a Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, the Fund's distributions, to the extent derived from the Fund's current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends received deduction available to corporate U.S. shareholders, and U.S. non-corporate shareholders would generally be able to treat such distributions as "qualified dividend income" eligible for preferential rates of U.S. federal income taxation, provided in each case that certain holding period and other requirements are satisfied.

Distributions in excess of a Fund's current and accumulated earnings and profits would be treated first as a return of capital to the extent of the shareholders' tax basis in their shares of the Fund, and any remaining distributions would be treated as a capital gain. To qualify as a RIC in a subsequent taxable year, a Fund would be required to satisfy the Income Test, Asset Test and Distribution Test for that year and distribute of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the nonqualifying year, a Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent 10 years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its requalification as a RIC.

Taxation for U.S. Shareholders. Distributions paid to U.S. shareholders by a Fund from its investment company taxable income (which is, generally, the Fund's ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally taxable to U.S. shareholders as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional shares of the Fund. Such distributions (if designated by a Fund) may qualify (i) for the dividends received deduction in the case of corporate U.S. shareholders to the extent that a Fund's income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers' cooperatives or REITs or (ii) in the case of individual U.S. shareholders, as qualified dividend income eligible to be taxed at preferential rates to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and other requirements are met. Qualified dividend income is, in general, dividend income from taxable U.S. corporations and qualified foreign corporations (which generally include, foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company (a "PFIC"). Distributions made to a U.S. shareholder from an excess of net long-term capital gains over net short-term capital losses ("Capital Gain Dividends"), including Capital Gain Dividends credited to such U.S. shareholder but retained by the Fund, are taxable to such shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such U.S. shareholder owned the shares of the Fund. The maximum tax rate on Capital Gain Dividends received by individuals is generally 20%. Distributions in excess of the Fund's earnings and profits will be treated by the U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's shares of the Fund and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder. A Fund is not required to provide written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions. The Forms 1099 sent to the U.S. shareholders will instead serve this notice purpose.

As a RIC, each Funds will be subject to the AMT, but any items that are treated differently for AMT purposes must be apportioned between a Fund and the U.S. shareholders and this may affect the shareholders' AMT liabilities. Each Funds intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to the Fund's taxable income (determined without regard to the dividends paid deduction).

For purpose of determining (i) whether the Distribution Test is satisfied for any year and (ii) the amount of Capital Gain Dividends paid for that year, a Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the prior taxable year. If a Fund makes such an election, a U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by a Fund in October, November, or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

Each Fund intends to distribute all realized capital gains, if any, at least annually. If, however, a Fund were to retain any net capital gain, the Fund may designate the retained amount as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the U.S. federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of shares of the Fund owned by a U.S. shareholder will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the U.S. shareholder's gross income and the tax deemed paid by the shareholders.

Sales and other dispositions of the shares, such as exchanges, of the Funds generally are taxable events. U.S. shareholders should consult their own tax adviser with reference to their individual circumstances to determine whether any particular transaction in the shares of a Fund is properly treated as a sale or exchange for U.S. federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such transactions. The sale or other disposition of shares of a Fund will generally result in capital gain or loss to the U.S. shareholder equal to the difference between the amount realized and the shareholder's adjusted tax basis in the shares sold or exchanged, and will be long-term capital gain or loss if the shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of shares held for six months or less will be treated as long-term capital loss to the extent of any Capital Gain Dividends received (including amounts credited as an undistributed Capital Gain Dividends) by such shareholder with respect to such shares. A loss realized on a sale or exchange of shares of a Fund generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. Both long-term and short-term capital gain of U.S. corporations are taxed at the rates applicable to ordinary income of corporations. For non-corporate U.S. taxpayers, short-term capital gain is taxed at the rate applicable to ordinary income, while long-term capital gain generally is taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

Each Fund is required to report its shareholders' cost basis, gain/loss, and holding period to the IRS on the Fund's shareholders' Consolidated Form 1099s. The Funds have chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Funds will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Funds' standing tax lot identification method is the method shares will be reported on a U.S. shareholder's Consolidated Form 1099 if the U.S. shareholder does not select a specific tax lot identification method. U.S. shareholders may choose a method different than a Funds' standing method and will be able to do so at the time of their purchase or upon the sale of shares. The Funds are not responsible for the reliability or accuracy of the information for those securities that are not covered under these rules. The Funds and their service providers do not provide tax advice. U.S. shareholders should consult independent sources, which may include a tax professional, with respect to any decisions they may make with respect to choosing a tax lot identification method.

Certain U.S. shareholders, including individuals and estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Funds and net gains from the disposition of shares of the Funds. U.S. shareholders are urged to consult their own tax advisers regarding the implications of the additional Medicare tax resulting from an investment in the Funds.

Straddles. When a Fund enters into an offsetting position to limit the risk on another position, the “straddle” rules usually come into play. An option or other position entered into or held by a Fund in conjunction with any other position held by the Fund may constitute a straddle for U.S. federal income tax purposes. In general, straddles are subject to certain rules that may affect the character and timing of a Fund’s gains and losses with respect to straddle positions. The key features of the straddle rules are as follows:

A Fund may have to wait to deduct any losses. If a Fund has a capital gain in one position of a straddle and a capital loss in the other, the Fund may not recognize the loss for U.S. federal income tax purposes until the Fund disposes of both positions. This might occur, for example, if a Fund had a highly appreciated stock position and the Fund purchased protective put options (which give the Fund the right to sell the stock to someone else for a period of time at a predetermined price) to offset the risk. If the stock continued to increase in value and the put options expired worthless, the Fund must defer recognition of the loss on its put options until the Fund sells and recognizes the gain on the original, appreciated position.

A Fund’s capital gain holding period may get clipped. The moment a Fund enters into a typical straddle, the capital gains holding period on its offsetting positions is frozen. If a Fund held the original position for one year or less (thus not qualifying for the long-term capital gains rate), not only is the holding period frozen, it starts all over again when the Fund disposes of the offsetting position.

Losses recognized with respect to certain straddle positions that would otherwise constitute short-term capital losses may be treated as long-term capital losses. This generally has the effect of reducing the tax benefit of such losses.

A Fund may not be able to deduct any interest expenses or carrying charges. During the offsetting period, any interest or carrying charges associated with the straddle are not currently tax deductible, but must be capitalized (added to cost basis).

Original Issue Discount, Pay-In-Kind Securities, Market Discount and Commodity-Linked Notes. Some debt obligations with a fixed maturity date of more than one year from the date of issuance that may be acquired by a Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of OID is treated as interest income and is included in a Fund’s taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations that may be acquired by a Fund in the secondary market may be treated as having “market discount.” Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its “revised issue price”) over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt obligation. Alternatively, the Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in the Fund’s income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in a Fund’s income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear. See below under “Higher-Risk Securities.”

Some debt obligations that may be acquired by a Fund may be treated as having “acquisition discount” (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. A Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. A Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though the Fund receives no interest payment in cash on the security during the year.

If a Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). A Fund may realize gains or losses from such liquidations. In the event a Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Higher-Risk Securities. To the extent such investments are permissible for a Fund, a Fund may invest in debt obligations that are in the lowest rating categories or are unrated, including debt obligations of issuers not currently paying interest or who are in default. Investments in debt obligations that are at risk of or in default present special tax issues for a Fund. Tax rules are not entirely clear about issues such as when a Fund may cease to accrue interest, the OID or market discount, when and to what extent deductions may be taken for bad debts or worthless securities and how payments received on obligations in default should be allocated between principal and income. In limited circumstances, it may also not be clear whether a Fund should recognize market discount on a debt obligation, and if so, what amount of market discount the Fund should recognize. These and other related issues will be addressed by a Fund when, as and if it invests in such securities, in order to seek to ensure that it distributes sufficient income to preserve its status as a RIC and does not become subject to U.S. federal income or excise tax.

Issuer Deductibility of Interest. A portion of the interest paid or accrued on certain high yield discount obligations owned by a Fund may not be deductible to (and thus, may affect the cash flow of) the issuer. If a portion of the interest paid or accrued on certain high yield discount obligations is not deductible, that portion will be treated as a dividend for purposes of the corporate dividends-received deduction. In such cases, if the issuer of the high yield discount obligations is a domestic corporation, dividend payments by a Fund may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such accrued interest.

Interest paid on debt obligations owned by the Funds, if any, that are considered for U.S. federal income tax purposes to be payable in the equity of the issuer or a related party will not be deductible to the issuer, possibly affecting the cash flow of the issuer.

Tax-Exempt Shareholders. A tax-exempt U.S. shareholder could recognize unrelated business taxable income (“UBTI”) by virtue of its investment in a Fund if shares in the Fund constitute debt-financed property in the hands of the tax-exempt U.S. shareholder within the meaning of Code Section 514(b). Furthermore, a tax-exempt U.S. shareholder may recognize UBTI if a Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in real estate mortgage conduits (“REMICs”) or equity interests in taxable mortgage pools (“TMPs”) if the amount of such income recognized by the Fund exceeds the Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in RICs that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. A CRT (as defined in Code Section 664) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in a Fund that recognizes “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in a Fund that recognizes “excess inclusion income,” then the Fund will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such shareholders, at the highest U.S. federal corporate income tax rate. The extent to which this IRS guidance remains applicable is unclear. To the extent permitted under the 1940 Act, a Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder’s distributions for the year by the amount of the tax that relates to such shareholder’s interest in the Fund. The Funds have not yet determined whether such an election will be made.

CRTs and other tax-exempt investors are urged to consult their own tax advisers concerning the consequences of investing in the Funds.

Passive Foreign Investment Companies. A PFIC is any foreign corporation: (i) 75% or more of the gross income of which for the taxable year is passive income, or (ii) the average percentage of the assets of which produce or are held for the production of passive income is at least 50%. Generally, passive income for this purpose means dividends, interest, royalties, rents, annuities, the excess of gains over losses from certain property transactions and commodities transactions, and foreign currency gains. Passive income for this purpose does not include rents and royalties received by the foreign corporation from active business and certain income received from related persons.

Equity investments by a Fund in certain PFICs could potentially subject the Fund to a U.S. federal income tax or other charge (including interest charges) on the distributions received from the PFIC or on proceeds received from the disposition of shares in the PFIC. This tax cannot be eliminated by making distributions to the Fund shareholders. However, a Fund may elect to avoid the imposition of that tax. For example, if a Fund is in a position to and elects to treat a PFIC as a “qualified electing fund” (“QEF”), the Fund will be required to include its share of the PFIC’s income and net capital gains annually, regardless of whether it receives any distribution from the PFIC. Alternatively, a Fund may make an election to mark to market the gains (and to a limited extent losses) in its PFIC holdings as though it had sold and repurchased its holdings in that PFIC on the last day of the Fund’s taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed by a Fund to avoid taxation. Making either of these elections therefore may require a Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund’s total return. Dividends paid by PFICs will not be eligible to be treated as qualified dividend income.

Because it is not always possible to identify a foreign corporation as a PFIC, a Fund may incur the tax and interest charges described above in some instances.

Foreign Taxation. Income received by a Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes.

Non-U.S. Shareholders. Capital Gain Dividends are generally not subject to withholding of U.S. federal income tax. Absent a specific statutory exemption, dividends other than Capital Gain Dividends paid by a Fund to a Non-U.S. shareholder are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

A RIC is not required to withhold any amounts (i) with respect to distributions (other than distributions to a Non-U.S. shareholder), (a) that does not provide a satisfactory statement that the beneficial owner is not a U.S. person, (b) to the extent that the dividend is attributable to certain interest on an obligation if the Non-U.S. shareholder is the issuer or is a 10% shareholder of the issuer, (c) that is within a foreign country that has inadequate information exchange with the United States, or (d) to the extent the dividend is attributable to interest paid by a person that is a related person of the Non-U.S. shareholder and the Non-U.S. shareholder is a controlled foreign corporation) from U.S.-source interest income of types similar to those not subject to U.S. federal income tax if earned directly by a Non-U.S. shareholder, to the extent such distributions are properly reported as such by a Fund in a written notice to shareholders (“interest-related dividends”), and (ii) with respect to distributions (other than (a) distributions to an individual Non-U.S. shareholder who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (b) distributions subject to special rules regarding the disposition of U.S. real property interests (“USRPIs”) as described below) of net short-term capital gains in excess of net long-term capital losses to the extent such distributions are properly reported by the RIC (“Short-Term Capital Gain Dividends”). If a Fund invests in an underlying fund that pays such distributions to the Fund, such distributions retain their character as not subject to withholding if properly reported when paid by the Fund to Non-U.S. shareholders.

The Funds are permitted to report such part of their dividends as interest-related or Short-Term Capital Gain Dividends as are eligible, but are not required to do so. These exemptions from withholding will not be available to Non-U.S. shareholders if a Fund does not report dividends as interest-related or Short-Term Capital Gain Dividends.

In the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports all or a portion of a payment as an interest-related or Short-Term Capital Gain Dividend to shareholders. Non-U.S. shareholders should contact their intermediaries regarding the application of these rules to their accounts.

A Non-U.S. shareholder generally is not subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of shares of a Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such shareholder within the United States, (ii) in the case of an individual shareholder, the shareholder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividends and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of USRPIs apply to the Non-U.S. shareholder's sale of shares of the Funds or to a Capital Gain Dividend received by the Non-U.S. shareholder.

Special rules would apply if a Fund were either a "U.S. real property holding corporation" ("USRPHC") or would be a USRPHC but for the operation of certain exceptions to the definition thereof. Very generally, a USRPHC is a U.S. corporation that holds USRPIs the fair market value of which equals or exceeds 50% of the sum of the fair market values of the corporation's USRPIs, interests in real property located outside the United States, and other assets. USRPIs are generally defined as any interest in U.S. real property and any interest (other than solely as a creditor) in a USRPHC or former USRPHC.

If a Fund were a USRPHC or would be a USRPHC but for certain exceptions, any distributions by the Fund to a Non-U.S. shareholder (including, in certain cases, distributions made by the Fund in redemption of its shares) attributable to gains realized by the Fund on the disposition of USRPIs or to distributions received by the Fund from a lower-tier RIC or REIT that the Fund is required to treat as USRPI gain in its hands generally would be subject to U.S. federal income tax withholding. In addition, such distributions could result in the Non-U.S. shareholder being required to file a U.S. federal income tax return and pay tax on the distributions at regular U.S. federal income tax rates. The consequences to a Non-U.S. shareholder, including the rate of such withholding and character of such distributions (e.g., as ordinary income or USRPI gain), would vary depending upon the extent of the Non-U.S. shareholder's current and past ownership of a Fund. This "look-through" USRPI treatment for distributions by a Fund, if it were either a USRPHC or would be a USRPHC but for the operation of certain exceptions, to Non-U.S. shareholders applies only to those distributions that, in turn, are attributable to distributions received by a Fund from a lower-tier REIT, unless Congress enacts legislation providing otherwise.

In addition, if a Fund were a USRPHC or former USRPHC, it could be required to withhold U.S. federal income tax on the proceeds of a share redemption by a greater-than-5% Non-U.S. shareholder, in which case such Non-U.S. shareholder generally would also be required to file a U.S. federal income tax return and pay any additional taxes due in connection with the redemption.

Whether or not a Fund is characterized as a USRPHC will depend upon the nature and mix of the Fund's assets. The Funds do not expect to be a USRPHCs. Non-U.S. shareholders should consult their own tax advisers concerning the application of these rules to their investment in the Funds.

If a Non-U.S. shareholder has a trade or business in the United States, and the dividends from a Fund are effectively connected with the Non-U.S. shareholder's conduct of that trade or business, the dividend will be subject to U.S. federal net income taxation at regular income tax rates.

If a Non-U.S. shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by that Non-U.S. shareholder in the United States.

To qualify for any exemptions from withholding described above or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a Non-U.S. shareholder must comply with special certification and filing requirements relating to its Non-U.S. status (including, in general, furnishing an applicable IRS Form W-8). Non-U.S. shareholders should consult their own tax advisers in this regard.

A Non-U.S. shareholder may be subject to U.S. state and local tax and to the U.S. federal estate tax in addition to the U.S. federal income tax referred to above.

Backup Withholding. The Funds generally are required to backup withhold and remit to the U.S. Treasury Department a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Funds with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to properly certify to the Funds that he or she is not subject to such withholding. The backup withholding tax rate is currently 24%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

FATCA. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (i) income dividends paid by the Fund and (ii) in the future, possibly certain capital gain distributions and the proceeds arising from the sale of shares of a Fund paid by the Fund. FATCA withholding tax generally can be avoided: (i) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (ii) by an NFFE, if it: (a) certifies that it has no substantial U.S. persons as owners or (b) if it does have such owners, reports information relating to them. The Funds may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA, generally on an applicable IRS Form W-8.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss with respect to a Fund's shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments purchased through defined contribution plans and other tax-qualified plans. Shareholders should consult their own tax advisers to determine the suitability of shares of a Fund as an investment through such plans, and the precise effect of an investment on their particular tax situation.

Possible Tax Law Changes. At the time that this SAI was being prepared, various administrative and legislative changes to the U.S. federal tax laws are under consideration, but it is not possible at this time to determine whether any of these changes will take place or what the changes might entail.

The foregoing is a general and abbreviated summary of the provisions of the Code and the Treasury regulations in effect as they directly govern the taxation of the Funds and their shareholders.

These provisions are subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their own tax advisers regarding specific questions as to U.S. federal income, estate or gift taxes, or foreign, state, local taxes or other taxes.

FINANCIAL STATEMENTS

The Funds are newly organized and therefore have not yet had any operations as of the date of this Prospectus and do not have financial highlights to present at this time. Financial statements and Annual Reports for a Fund will be available after the Fund has completed a fiscal period of operations. When available, you may request a copy of a Fund's Annual or Semiannual Report at no charge by calling 1-866-5Themes (1-866-584-3637), or you may download the report at the Fund's website at www.ThemesETFs.com.

APPENDIX A

The Trust and the Adviser have adopted the following guidelines with respect to proxy voting responsibilities for the Funds.

THEMES ETF TRUST PROXY VOTING POLICY AND PROCEDURES

The Themes ETF Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

Delegation of Proxy Voting Authority to Fund Adviser

The Board believes that the investment adviser of each Fund (the “Adviser”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Adviser of each Fund to make decisions on how to cast proxy votes on behalf of such Fund. The Adviser’s Proxy Voting Policies and Procedures are located in the Adviser’s Compliance Manual.

The Trust hereby designates the Adviser of each Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, the Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. The Adviser shall perform these duties in accordance with the Adviser’s proxy voting policy, a copy of which shall be presented to this Board for its review. The Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of a Fund’s shareholders and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund’s vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser’s proxy voting policy, to the extent consistent with the shareholders’ best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board’s decision.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

If a Fund has a website, the Fund may post a copy of its Adviser’s proxy voting policy and this Policy on such website. A copy of such policies and of each Fund’s proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund’s toll-free telephone number as printed in the Fund’s prospectus. The Trust’s administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

The Adviser shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 30 days following the end of each 12-month period ending June 30th. The Trust's administrator will file a report based on such record on Form N-PX on an annual basis with the U.S. Securities and Exchange Commission no later than August 31st of each year.

In cases in which the client is a registered investment company under the Investment Company Act of 1940, and delegates proxy voting, Themes Management Company, LLC ("Themes") will vote proxies pursuant to this policy.

Themes follows the proxy guidelines and uses other research services provided by Institutional Shareholder Services, Inc. ("ISS"). In providing proxy voting services to Themes, ISS provides vote recommendations on a pre-determined policy.

An investment adviser with the authority to vote client proxies must satisfy three general requirements:

- Adopt and implement written proxy voting policies and procedures reasonably designed to ensure that adviser votes client securities proxies in the best interests of clients and address how conflicts of interest will be handled
- Disclose its proxy voting policies and procedures to clients, furnish clients with a copy of the policies and procedures if they request it, and inform clients as to how they can obtain information from the adviser regarding the manner in which proxies on their securities were voted
- Maintain records as evidence of compliance with these requirements Proxy voting records that must be maintained include:
 - Written policies and procedures
 - Proxy statements received for client securities
 - Records of proxy votes cast for clients' securities, including any material supporting documentation relied upon in the process
 - Record of the disclosure to clients of the adviser's policies and access to voting decisions, including client requests to view the adviser's proxy policies or proxy voting record, and the adviser's response

FORM N-PX – THE FUND

Funds must file Form N-PX with the Securities and Exchange Commission to report their proxy voting records for each twelve-month period, ending on June 30 of each year. The reports must be submitted not later than August 31 and are made publicly available. The CCO is responsible for ensuring that Themes maintains the information required to complete Form N-PX, as listed below:

- The name of the issuer of the portfolio security;
- The exchange ticker symbol of the portfolio security;
- The CUSIP number for the portfolio security;
- The shareholder meeting date;
- A brief identification of the matter voted on;

- Whether the matter was proposed by the issuer or by a security holder;
- Whether the fund cast its vote on the matter;
- How the fund cast its vote (e.g., for or against proposal, or abstain; for or withhold regarding election of directors); and
- Whether the fund cast its vote for or against management.

Themes is responsible for providing the respective proxy voting information related to the filing of the Form N-PX and will submit the information to the Trust upon request. The Trust's administrator will submit the Form N-PX to the SEC on behalf of the Funds.

FIRM PROCEDURES

Themes believes that the voting of proxies is an important part of portfolio management as it represents an opportunity for shareholders to make their voices heard and to influence the direction of a company.

The Investment Committee is charged with responsibility to ensure that Themes implements proxy voting policies and procedures that provide protection against conflicts of interest, adequate record-keeping and disclosures regarding the policies and procedures. It is the policy of Themes to vote client proxies in the best economic interests of the clients. Consistent with its fiduciary duty, Themes will strive to vote in a way that will cause the value of the issue to increase the most or decline the least. Themes will monitor corporate actions and consideration will be given to both the short and long-term implications of the proposal to be voted on when considering the optimal vote. Themes will further consider the opinion of management and the effect on management, and the effect on shareholder value and the issuer's business practices.

Any general or specific proxy voting guidelines provided by an advisory client or its designated agent in writing will take the place of this policy. Clients may wish to have their proxies voted by an independent third party or other named fiduciary or agent, at the client's cost.

Absent specific voting guidelines by a client, Themes will generally vote proxies as follows:

- Vote all proxies from a specific issuer the same way for each client
- Routine corporate proposals such as approval of auditors and election of directors will be voted with management. Proposals involving corporate responsibility and social/political issues will be voted on a case-by-case basis.
- Non-routine corporate proposals (i.e., restructuring efforts, name changes, mergers & acquisitions, stock options plans etc.) will be analyzed with the goal of maximizing shareholder value, but will mostly concur with management's vote
- Corporate governance proposals (i.e., golden parachutes, poison pills, limitations on officer and director liabilities, cumulative voting etc.) that cause board members to become entrenched or cause unequal voting rights will be voted against

The Investment Committee is responsible to ensure that records of Themes' proxy voting policies and practices are retained including at minimum:

- Proxy voting policy, including third party supplemental information if applicable (if service bureau is utilized)
- Record of proxy votes cast
- Record of disclosure(s) made to clients/investors regarding proxy voting
- Record of any client/investor requesting the adviser's proxy voting policies/record and evidence that responsive information was provided
